EXPLANATORY NOTES TO THE EEC GSP SCHEME FOR 1990

Chapter I

INDUSTRIAL PRODUCTS

(Council Regulation No. 3896/89) 1/

1. The EEC Regulation 3896/89 covers all industrial products (chapters 25 to 97 of the Harmonized System) with the exception of:

- textile products (for these products see EEC Regulation 3897/89);
- coal and steel products (for these products see EEC decision 89/645);
- base products excluded from the GSP (listed in annex II part 1);
- products which are duty-free under the MFN rate of duty.

2. Industrial products imported into the EEC market are regarded as either "sensitive" or "non-sensitive". Imports under the GSP of sensitive products are subject to quantitative limitations; imports under GSP of non-sensitive products are subject to statistical surveillance (no quantitative limitations apply). For both categories (sensitive and non-sensitive industrial products) the preferential rate granted by the EEC is zero. Annex I of the Regulation contains the list of sensitive products, i.e. products which are under quantitative limitations. All other industrial products (with the exception of products mentioned in para. 1) are included in the scheme and are not under quantitative limitations.

3. If one wishes to know the tariff treatment granted by the EEC to an industrial product imported from a beneficiary country, one should take the following steps:

- Check in the Common Customs Tariff 2/ which rate is accorded to the specific product on the basis of the most favoured nation (MFN) rate of duty. If the product already enjoys duty-free entry, it obviously will not be included in the GSP scheme. In this case one has to keep in mind that although one's product can enter into the EEC market free of duty, the same product imported from all other countries (developing and developed) will receive the same treatment. Consequently there will be strong competition since preferential treatment does not apply;
- If in the Common Customs Tariff one finds that the product one is interested in is subject to a customs duty at the moment of import into the EEC, one must verify if preferential treatment is granted to that product under the GSP scheme. If the product is listed in annex I it will enjoy duty-free entry under quantitative limitations, which take the form of either ceilings or fixed duty-free amounts; 3/ If one's product is not listed in annex I, it means that it will enjoy duty-free entry without quantitative limitations;

READEX

- Keep in mind that these rules do not apply to some base products (listed in annex II of the Regulation, part 1), which are excluded from preferential benefit, and that textile and steel products receive special treatment under two specific EEC regulations.

4. If quantitative limitations take the form of individual tariff ceiling, and imports of a specific product from a beneficiary country have reached the amount established by the EEC, the MFN rate of duty may be reintroduced in the whole of the Community until the end of the year (in respect of this country and this product). EEC authorities have the discretionary power to reintroduce the MFN rate of duty after having an exchange of views with member States.

5. If quantitative limitations take the form of individual fixed duty-free amount and imports of a specific product from a beneficiary country have reached the amount established by the EEC, the MFN rate of duty must be reintroduced in the whole of the Community (in respect of this country and this product) until the end of the year or of the semester, depending on whether imports are administered on the basis of one single period of twelve months or two successive periods of six months. Amounts are expressed in ECU, unless otherwise indicated.

6. An example of a product subject to ceiling and fixed duty-free amount is as follows:

Table 1

H.S.	Description	Fixed Duty-Free Amounts		
		Beneficiary countries and territories	Amount (ECU)	Ceilings (ECU)
6908	Glazed ceramic flag and paving, hearth or wall tiles, glazed ceramic mosaic cubes and the like whether or not on a backing	Brazil Thailand	3 650 000	
		Republic of Korea	1 314 000	3 650 000

7. In this case preferential imports (duty-free) into the EEC market of glazed ceramic flags and paving etc. from the Republic of Korea cannot exceed a value of 1,314,000 ECU in the year 1990. Once this amount has been reached, the MFN rate of duty (9 per cent) will be re-established. Fixed duty-free amounts only affect imports under the GSP and do not prevent the Republic of Korea from exporting the product concerned under the MFN rate of duty. 4/ Imports of glazed ceramic flags and paving etc. from Brazil and Thailand are under fixed duty-free amounts as well: 3,650,000 ECU is the amount granted to Brazil and Thailand individually. Once these amounts have been reached, the GSP treatment is suspended. However, imports from the two countries are still allowed provided the MFN rate of duty is paid.

8. For the same product imports from all other beneficiary countries are under individual ceilings. It means that EEC importers can import duty-free glazed ceramic flags and paving etc. from each beneficiary country up to an individual amount of 3,650,000 ECU for 1990. Once imports from a beneficiary have reached the indicated amount, the preferential treatment can still be granted until the moment EEC Authorities decide to reintroduce at the Community level the MFN rate of duty vis-à-vis the specific product and the specific supplier.

9. As mentioned before, imports of non-sensitive industrial products (other than some base products, textiles and steel products) which are not included in annex I are duty-free and quota-free. Nevertheless, EEC Authorities may decide to reintroduce the MFN rate of duty with regard to a specific product and a specific country, if preferential imports cause or threaten to cause economic difficulties in the Community or in a region of the Community.

10. However, these products which are under surveillance for essentially statistical purposes are subject to reference bases. The reference bases for 1990 correspond in general to 6 per cent of the extra total imports in 1987 of each of the products concerned from any beneficiary, while for some products the reference bases are corresponding to rules of 2 per cent of the paid importations (the list of such products is reproduced in part 3 of annex II). When these limits of 6 per cent or 2 per cent are reached, the MFN treatment may be re-established vis-à-vis the specific product/beneficiary until the end of the calendar year.

11. Least developed countries (listed in annex IV of the Regulation) enjoy special treatment:

- Preferential imports from LDCs of products included in annex I are totally exempted from quantitative limitations (duty-free; quota-free);

- Preferential imports from LDCs of other industrial products not included in annex I (different from some base product, textiles and steel products) are duty-free and quota-free and cannot be subject to the reintroduction of the MFN rate of duty even if they cause economic difficulties in the Community.

Chapter II

TEXTILE PRODUCTS

(Council Regulation No. 3897/89) 5/

12. Textile products are divided in two categories:

- MFA (Multi-Fibre Arrangement 6/) products, and
- Non-MFA products.

13. Beneficiary countries are also divided in two categories:

- Countries which signed bilateral agreements, inside or outside of the framework of the MFA, providing for quantitative limitation of their exports of certain textile products to the EEC (listed in annex IV of the Regulation);
- Other beneficiary countries (listed in annex V).

14. Only countries signatories of bilateral agreements with the EEC can enjoy preferential treatment on MFA products (listed in annex I).

15. All beneficiary countries can enjoy preferential treatment on non-MFA products (listed in annex II). The preferential rate granted by the EEC is zero.

MFA products

16. Imports into the EEC market of MFA products listed in annex I are under quantitative limitations which take the form of individual tariff ceilings or individual tariff photos. Once imports under individual tariff ceilings have reached the amount established by the EEC (for a specific product coming from a specific country) the MFN rate of duty may be reintroduced (in respect of the specific country and the specific product), if the EEC authorities so decide after having exchanged views with member States (discretional power of EEC Authorities).

17. If imports into the EEC of MFA products are under individual tariff quotas the quota amount (for a specific product) granted to each beneficiary is allocated among EEC member States (in the following scale in percentages: Benelux 9.5 per cent, Denmark 2.7 per cent, Federal Republic of Germany 25.5 per cent, Greece 1.5 per cent, Spain 7.5 per cent, France 16.5 per cent, Ireland 0.8 per cent, Italy 13.5 per cent, Portugal 1.5 per cent, United Kingdom 21.0 per cent). The quota is divided into two tranches: a first tranche of 70 per cent and a reserve, which can be used when a member State has exhausted all of its quota share. Once imports of a specific product from a beneficiary country into an EEC member State have reached the amount established by the EEC, the MFN rate of duty must be re-established in the member State concerned (in respect of the specific supplier and the specific product). Tariff quotas are administered on the basis of a single period of twelve months or two successive periods of six months. Amounts are expressed in tons, pieces or pairs.

Table 2

			Each of the other beneficiaries listed in Annex IV	-	-	-	-	-	77

18. An example of a product subject to ceilings and tariff quota is given in table 2. In this case preferential imports into the EEC market of men's or boys' jackets etc. are under tariff ceilings if coming from Poland (up to an amount of 23,000 pieces) or from all other beneficiary countries and territories (listed in annex IV) which have a self-restraint agreement with the EEC (up to an individual amount of 77,000 pieces), except China, Hong Kong, Macao, Romania, the Republic of Korea and Hungary. Imports from these countries are under the system of tariff quotas. The EEC, for instance, can globally import 7,500 (5.3 + 2.2 = 7.5 x 1000) pieces of men's or boys' jackets from China during the first semester of 1990 and it can import the same amount during the second semester of the year. The amount will be allocated among EEC member States according to the percentage given before. Consequently, China can receive preferential treatment for 1,352 pieces of men's or boys' jackets exported to the Federal Republic of Germany, plus another limited amount that the Federal Republic of Germany can draw from the reserve. Once this amount has been reached, the Federal Republic of Germany must re-establish the MFN rate of duty against China for the specific product until the end of the semester. China can therefore continue exporting men's or boys' jackets to the Federal Republic of Germany, paying the MFN rate of duty (14 per cent). With the starting of the new semester (1.7.30) the preferential treatment will be granted again. However, in order to use all the tariff quotas allocated to the EEC member States, each member State should return to the Community reserve, the part not used. From 1 January 1990, the return to the Community reserve became compulsory after 80 per cent of the tariff quota is exhausted.

Non-MFA products

19. Imports into the EEC market of non-MFA products (listed in annex II) are under quantitative limitations which take the form of fixed duty-free amounts or tariff ceilings. If imports into the EEC of a non-MFA product are under individual tariff ceilings, it means that, once imports (of a specific product coming from a specific country) have reached the amount established by the EEC, the MFN rate of duty may be reintroduced (in respect of the specific country and the specific product) if EEC Authorities so decide, after having had an exchange of views with member States. If imports into the EEC of a non-MFA product are under individual fixed duty-free amounts it means that, once imports (of a specific product coming from a beneficiary country) have reached the amount established by the EEC, the MFN rate of duty must be reintroduced (in respect of this country and this product) until the end of the year. Amounts are expressed in tonnes. An example of a product subject to ceiling and fixed duty-free amount is given in table 3.

20. In this case preferential imports (duty-free) into the EEC market of table linen etc. from Poland cannot exceed an amount of 14 tonnes during 1990. Once this amount has been reached, the MFN rate of duty (13 per cent) will be re-established in respect of the whole of the Community. Fixed duty-free amounts only affect trade under the GSP and do not prevent Poland from exporting the product concerned under the MFN rate of duty.

Table 3

Order No.	Category	CN code	Description	Beneficiary countries or territories	Fixed duty-free amounts (in tonnes)	Tariff ceilings
(1)	(2)	(3)	(4)	(5)	(6)	(7)
421180	118	63022910 63023910 63023930 63025200 ex 63025900 ex 63029200 ex 63029900	Table linen, toilet linen and kitchen linen of flax or ramie, other than knitted or crocheted	Poland Each of the other beneficiaries listed in annex V	14 -	- 14

21. For the same product imports from all other beneficiaries (listed in annex V) are under individual tariff ceilings. It means that EEC importers can import duty-free table linen etc. from each beneficiary country up to an amount of 14 tonnes for 1990. Once imports from a beneficiary have reached the indicated amount, the preferential treatment can still be granted until the moment the EEC Authorities decide to introduce the MFN rate of duty vis-à-vis the specific product and the specific supplier.

22. In order to determine the tariff treatment granted by the EEC to a textile product imported from a beneficiary country, one has to take the following steps:

- Check in the Common Customs Tariff which rate is accorded to the specific product on the basis of the most-favoured nation (MFN) rate of duty. If the product already enjoys duty-free entry, it obviously will not be included in the GSP scheme. In this case one has to keep in mind that, although one's product can enter into the EEC market free of duty, the same product imported from all other countries (developing and developed) will receive the same treatment, consequently there will be strong competition that one's product must face without enjoying any preferential treatment;

- If in the Common Customs Tariff one finds that the product is subject to a customs duty at the moment of import into the EEC, check the preferential treatment granted under the GSP scheme;

- If the product is included in annex I (i.e. it is a MFA product) check if the exporting country is listed in annex IV, as only countries listed in annex IV can enjoy preferential treatment for MFA products; 7/

- If this is the case, it should be kept in mind that duty-free entry is allowed under quantitative limitations, which take the form of tariff quotas or tariff ceilings;

- Remember that tariff ceilings apply Community-wide. As regards tariff quotas, specific allocations are made with respect to individual EEC member States;

- It is also important to keep in mind that if the exporting beneficiary countries have a self-restraint agreement with the EEC with respect to a specific product, they can receive duty-free entry under the GSP up to their individual tariff quota, after which they have to pay the MFN rate of duty up to their MFA established import quota. Thereafter exports of the product in question are prohibited;

- If the product is listed in annex I but originates in a beneficiary country which is not in annex IV (i.e. which does not have a bilateral agreement with the EEC), imports are possible, outside the framework of the GSP, paying the MFN rate of duty;

- If the product is included in annex II (non-MFA products) it means that all beneficiary countries (listed in annex V) can enjoy duty-free entry under quantitative limitations which take the form of fixed duty-free amounts or tariff ceilings. In this case there is no allocation among EEC member States;

- If one is interested in knowing the preferential treatment granted by the EEC to jute and coir products, see paragraph 5;

- If one is interested in knowing the treatment granted by the EEC to a textile product and cannot find it among the products listed in annexes I, II or III, it means that the product does not enjoy any preferential treatment under the GSP. Thus imports are possible under the MFN rate of duty and outside of the framework of the GSP.

Jute and coir products

23. For some jute and coir products (listed in annex III) duty-free and quota-free entry is granted to India and Thailand (for jute products) and to India and Sri Lanka (for one coir product). Least developed countries enjoy the same preferential treatment. All other beneficiary countries interested in having duty-free access to the EEC for jute and coir products can start negotiating special arrangements with the EEC.

Least developed countries

24. Least developed countries (listed in annex VI) enjoy a special preferential treatment:

- Preferential imports from LDCs of textile products listed in annexes I, II and III are duty-free and quota-free;

- LDCs do not need to have a self-restraint agreement with the EEC in order to enjoy preferential treatment for textile products listed in annex I.

Chapter III

AGRICULTURAL PRODUCTS

(Council Regulation Nos. 3898/89 and 3899/89) 8/

25. For five agricultural products (listed in annex I) the EEC grants a reduced rate of duty under quantitative limitations which take the form of global fixed reduced-duty amounts. It means that once global imports (i.e. imports coming from all beneficiary countries listed in annex III) of one of the five products have reached the amount established by the EEC, the MFN rate of duty must be reintroduced (in respect of all beneficiaries for the specific product) until the end of the year. Amounts are expressed in tonnes.

26. For some other agricultural products (listed in annex II) imports into the EEC from beneficiary countries (listed in annex III) enjoy a reduced output rate of duty and are not under quantitative limitations.

27. Least developed countries (listed in annex V) enjoy duty-free and quota-free entry for the agricultural products listed in annex IV. (Annex IV is much wider than annex II and includes as well the products listed in annex I).

28. EEC Authorities may decide to reintroduce the MFN rate of duty for agricultural products which enjoy preferential treatment without being subject to quantitative limitations (product listed in annexes II and IV), if preferential imports cause or threaten to cause economic difficulties in the Community or in a region of the Community (the MFN rate of duty will be re-established against a specific product and a specific country).

29. For some additional agricultural products (listed in the annex of the Regulation 3899/89) imports into the EEC from all beneficiaries (listed in annexes III and V of the Regulation 3898/89) enjoy 50 per cent cut from the normal levy of duty under quantitative limitations which take the form of global fixed reduced-levy amounts. Thus, once global imports (i.e. imports coming from all beneficiary countries) of one of the products listed in the annex have reached the amount established by the EEC, the normal levy must be reintroduced until the end of the year (with respect to all beneficiaries and to the specific product).

30. Preferential imports can be suspended if they cause or threaten to cause serious injury to Community producers of like or directly competing products. The amounts (expressed in tonnes) which can be imported into the EEC at the preferential rate are staggered over the year in four periods. (See EEC Official Journal, Vol 32, No. L 375 of 23 December 1989 (pp. 43 to 46) and ibid., Vol. 33, No. L 18 of 23 January 1990 (pp. 26 and 27) for the modalities of the application).

31. In order to know the tariff treatment granted by the EEC to an agricultural product imported from a beneficiary country, one should take the following steps:

- Check in the Common Customs Tariff which rate is accorded to the specific product on the basis of the Most Favoured Nation (MFN) rate of duty. If the product already enjoys duty-free entry, it obviously will not be included in the GSP scheme. If in the Common Customs Tariff one finds that the product is subject to a customs duty at the moment of import into the EEC, check the preferential treatment granted under the GSP scheme;

- In the case of a product coming from a least developed country and if the product is included in annex IV, it can enter into the EEC market duty-free and quota-free;

- If the product is not included in annex IV, but is included in the annex of Regulation 3899/89, preferential imports are allowed under quantitative limitations. Keep in mind that annex IV applies only to least developed countries;

- If the product is coming from a beneficiary which is not a least developed country, one has to check if the product is included in annex I, in annex II or in the annex to Regulation 3899/89. In the case of annex I and of the annex to Regulation 3899/89, preferential imports are under quantitative limitations. In the case of annex II they are not;

- It is important to remember that global fixed reduced-duty amounts are administered Community-wide (this means that they are not allocated among EEC member States) and that they apply in favour of beneficiary countries globally (this means that they are not established vis-à-vis individual beneficiary countries);

- If the product one is interested in is not included in the annexes of Regulations 3898/89 and 3899/89, it means that it does not enjoy any preferential treatment under the GSP.

Chapter IV

STEEL PRODUCTS 9/

(Council Decision 89/645 ECSC)

32. Products listed in annex I can be imported into the EEC free of duty under quantitative limitations which take the form of individual tariff quotas or individual tariff ceilings. If imports are under individual tariff ceilings and a ceiling is reached at Community level (for a specific product coming from a specific country) EEC Authorities have the discretional power to reintroduce the MFN rate of duty (against the specific product and the specific country), after having had an exchange of views with member States.

33. If imports are under individual tariff quotas it means that the amount (for a specific product) that each beneficiary is allowed to export under the GSP is allocated among EEC member States. Once imports of a specific product from a beneficiary country in a EEC member State have reached the amount established by the EEC, the MFN rate of duty must be reintroduced in the EEC member State concerned (with respect to the specific supplier and the specific product). The reintroduction of the MFN rate of duty is compulsory. Amounts are expressed in ECU. An example of a product subject to ceiling and tariff quota is given in table 4.

Table 4

Order No.	CN code	Description	Community tariff quotas			Ceilings
			Beneficiary countries or territories	Individual quota amount (ECU)	Amount of shares allocated to Member States (ECU)	Individual ceiling for countries or territories other than those under column 4 (ECU)
(1)	(2)	(3)	(4)	(5)	(6)	(7)
60 0030	7207 1915 7207 2055 etc.	Semi-finished products of iron or non-alloy steel, etc.	Argentina Brazil Venezuela	2 006 493	BNL 192 623 DK 92 299 D 501 623 E 146 474 GR 36 117 F 349 130 IRL 10 032 I 264 857 P 28 091 UK 385 247	2 006 493

34. In this case, preferential imports into the EEC market of semi-finished products of iron etc. are under tariff quotas if coming from Argentina, Brazil and Venezuela. It means that these three countries can individually export under the GSP up to an amount of 2,006,493 ECU. This amount is allocated among EEC member States, as shown in column 6. Imports of the same products from all other beneficiaries (listed in annex III), except Romania, are under individual tariff ceilings. This means that each beneficiary country may individually export under the GSP up to an amount of 2,006,493 ECU. This amount applies Community-wide: no specific allocations are made with respect to individual EEC member States.

35. Duty-free imports into the EEC of the products listed in annex II are under quantitative limitations which take the form of individual tariff ceilings corresponding to 102 per cent of the highest maximum amount valid for 1980 under each of the preferential ceilings, opened for that year. Once the individual ceiling is reached at Community level, EEC Authorities have the discretional power to reintroduce the MFN rate of duty (vis-à-vis the specific product coming from the specific supplier) until the end of the year.

36. Imports of products included in annexes I and II are duty-free and quota-free if coming from least developed countries (listed in annex IV).

37. To know the tariff treatment granted by the EEC to a steel product imported from a beneficiary country, the following steps should be taken:

- Check in the Common Customs Tariff which rate is accorded to the specific product on the basis of the MFN rate of duty. If the product already enjoys duty-free entry, it obviously will not be included in the GSP scheme. If one finds that the product is subject to a customs duty at the moment of import into the EEC, one should check the preferential treatment granted under the GSP scheme.

- If the product of interest is listed in annex I and it is under the tariff quotas system, the amount each beneficiary country is allowed to export under the GSP, as well as the allocations among individual EEC member States, must be respected. Thus each EEC member State must reintroduce the MFN rate of duty as soon as it finds that imports of a specific product coming from a beneficiary have reached the amount established by EEC Authorities.

- If the product of interest is subject to the tariff ceilings system (i.e. all products listed in annex II and products listed in annex I when they come from not very competitive suppliers) it should be kept in mind that there is no allocation among EEC member States and that when EEC Authorities decide to reintroduce the MFN rate of duty (vis-à-vis a specific product coming from a specific country) it will be in respect of the whole of the Community;

- If the product of interest is not included in annexes I or II it means that it does not enjoy any preferential treatment, but imports into the EEC are allowed, outside of the framework of the GSP, if the MFN rate of duty is paid.

COUNCIL REGULATION (EEC) No 3896/89

of 18 December 1989

applying generalized tariff preferences for 1990 in respect of certain industrial products originating in developing countries

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 thereof,

Having regard to the proposal from the Commission (1),

Having regard to the opinion of the European Parliament (2),

Having regard to the opinion of the Economic and Social Committee (3),

Whereas, in accordance with its offer made within the context of the United Nations Conference on Trade and Development (UNCTAD), the European Economic Community opened generalized tariff preferences commencing in 1971, notably in respect of finished and semi-finished industrial products from developing countries; whereas the initial 10-year period of application of this system of preferences ended on 31 December 1980;

Whereas, however, the positive role played by this system in improving access for developing countries to the markets of the preference-giving countries was recognized at the ninth session of the UNCTAD Special Committee on Preferences; whereas it was there agreed that the objectives of the system of generalized preferences would not be fully achieved by the end of 1980, that consequently it should be prolonged beyond the initial period and that an overall review of the system should take place in 1990;

Whereas, the Community has therefore decided to apply generalized tariff preferences, in the context of the conclusions agreed in UNCTAD in accordance with the intention expressed in the said Committee, in particular by all the preference-giving countries;

Whereas the temporary and non-binding nature of the system means that the offer can be withdrawn wholly or in part at a later date, thus maintaining the possibility of remedying any unfavourable situations which might arise following implementation of the system, including such situations in the African, Caribbean and Pacific States (ACP States);

Whereas, since the extension of its generalized tariff preferences scheme for a second 10-year period (1981 to 1990), the Community has decided to modify one of the fundamental characteristics of it to give the beneficiary countries a more equitable access to the preferential advantages; whereas, in order to attain this, the Community had decided to apply a preferential treatment which takes account of the particular situation of each of the beneficiaries and to proceed to a system of individual tariff ceilings for certain sensitive products; whereas the least-developed countries are not subject to ceilings; whereas, ever since then, the annual adaptations of the Community scheme have responded, for the most part, to the double imperative of the differentiation of the preferential advantages and of simplifications; whereas the identification of the products and the countries to treat selectively takes place with regard to the sensitivity of the sectors and to the Community market situation of the products in question as well as consideration of the degree of industrial development and the competitiveness of these countries;

Whereas preferential tariff treatment is applicable to industrial products of Chapters 25 to 49 and 64 to 97 of the Common Customs Tariff, with the exception of products:

— covered by the Treaty establishing the European Coal and Steel Community,

— contained in the list of primary products in part I of Annex II,

— entitled to exemption from customs duties in the Common Customs Tariff;

Whereas the tariff ceiling arrangements mentioned above must be applied in such a way as to differentiate between products in Annex I; whereas the tariff regimes necessary to implement these arrangements consist, on the one hand, of fixed duty-free amounts for products originating in the most competitive countries and, on the other hand, by means of ceilings for products in Annex I originating in other less competitive countries;

Whereas the other products covered by this Regulation should as a general rule, be made subject to surveillance for essentially statistical purposes;

Whereas, since the intermediate revision of the scheme for the years 1986 to 1990, the Community has established that:

— the latter responds satisfactorily to the fixed objectives,

— the beneficiary countries continue, however, to use the preferential advantages in an unequal manner,

— the objectives of the scheme have been reached in certain cases by the most competitive beneficiary countries;

Whereas, on the basis of these considerations, the Community has decided:

— to maintain for the second half of the decade the fundamental characteristics of the scheme, notably the grant, within certain limits, of the total suspension of custom duties,

— to accentuate the differentiation of the preferential advantages from which the most competitive countries benefit and to enlarge at the same time the preferential access to the least competitive countries;

Whereas provision should be made to continue in 1990 the process of differentiation begun in 1986 concerning the grant of advantages under the scheme to the more competitive countries — both in terms of market share and export capacity — and whereas it is therefore appropriate to reduce the preferential amounts by 50 % for four additional products originating in those countries, marked with three asterisks in Annex I to this Regulation; whereas the criteria to be adopted for such a reduction are based on the competitive capacity of the beneficiary country concerned, this capacity being expressed in the case of a specific product either by this country's participation in the Community's total imports or by the ratio of the preferential volume amount opened for this country to the total Community imports from the same country; whereas, in addition, the level of economic development of the country concerned has also been taken into account; whereas, with regard to the application of the first criterion, a share has been set at 20 % of the 1987 total extra-EEC imports of the product being referred to, while recourse to the second criterion is made where the total imports of the product in question have, in accordance with the mean of the years 1986 and 1987, exceeded by at least 10 times the tariff amount; whereas the first criterion applies to three of the four products mentioned above while the second criterion applies to one product;

Whereas the abovementioned reasons that have justified the criteria of competitiveness remain valid and whereas the maintenance of preferential benefit for the most competitive countries is not justified and a redistribution of the supply is necessary; whereas it is appropriate to pursue the differentiation and to initiate the suppression of the preferential benefit for certain countries for six additional products per country, designated by a footnote, meeting the first criterion and which have previously been reduced by 50 %;

Whereas, however, in the multilateral trade negotiations, in accordance with paragraph 6 of the Tokyo Declaration, the Community reaffirmed that special treatment should, whenever possible, be granted to the least developed among the developing countries; whereas, therefore, preferential imports of products originating in the least developed of the developing countries listed in Annex IV to this Regulation should not be subject to fixed duty free amounts or Community tariff ceilings;

Whereas to reflect better in the preferential amounts the development of commercial exchange flows of the Community, these amounts have in general been revised for 1990 with regard to the products of Annex I, with a view to the overall improvement of the system;

Whereas, for the same reasons, the process of revision was extended to the reference bases, taking into consideration the examination of the situation resulting from preferential importations of other products covered by this Regulation; whereas, at the same time, the method of calculation of the abovementioned reference bases has been revised, and for this purpose a percentage of total importations for each of these products into the Community has been taken into account; whereas, according to the new method of calculation, the reference bases for 1990 correspond in general to 6 % of the total imports into the Community in 1987 of each of the products concerned originating in a third country; whereas products subject to reference bases corresponding to 2 % only of the said importations are indicated in part 3 of Annex II;

Whereas such tariff exemptions should be reserved for products originating in the countries or territories under consideration, the concept of 'originating products' being determined by Regulation (EEC) No 693/88 [1];

Whereas both Poland and Hungary have seen their economic situation decline to the point where they face similar problems as those countries to which the generalized preferences have applied in the past; whereas they should therefore benefit from the system of generalized preferences in order to increase their export earnings with a view to stimulating their economic

[1] OJ No L 77, 22. 3. 1988, p. 1.

development, to promote their industrialization and to accelerate their rate of growth; whereas the benefit should only be accorded for the duration of their economic restructuring, estimated at five years, without prejudice to the annual character of the Community's system of generalized preferences;

Whereas the Community preference arrangements applicable to Yugoslavia result exclusively from the Agreement between the Community and the Socialist Federal Republic of Yugoslavia [1];

Whereas the Republic of Korea does not treat the Community on an equal footing with other trade partners and whereas it has taken discriminatory measures in respect of the Community in the sphere of the protection of intellectual property; whereas, therefore, it is inappropriate that the Republic of Korea should benefit from the scheme of generalized tariff preferences as long as this situation continues;

Whereas, since 1 March 1986, the Kingdom of Spain and the Portuguese Republic have applied the Community system of generalized preferences, in compliance with Articles 178 and 365 of the Act of Accession;

Whereas, regarding the fixed duty-free amounts given in Annex I, the method of management was formerly based on an apportionment of most of the amounts between the Member States; whereas the analysis of the utilization of these volumes shows a state of differing situations among the Member States, one or two reaching their individual amounts very quickly, while others disposed of their unused quantities until the end of the exercise; whereas, regarding the fact that they are Community measures and with the view to the achievement of the internal market foreseen by the 'White Paper' for 1992, it is not appropriate to foresee an apportionment among Member States; whereas the new method of management is open, furthermore, to improve the utilization of the said fixed duty-free amounts in that it allows the covering of the needs there where they are seen; whereas it is appropriate, besides, to foresee the possibility for the Member States to effect drawings by reason of quantities corresponding to their needs; whereas it is appropriate in respect of certain highly sensitive products to administer the fixed duty-free amounts over successive periods of six months rather than over a single period of 12 months;

Whereas, in respect of these fixed duty-free amounts, it is necessary in particular to ensure equal and continuous access for all Community importers and to ensure uninterrupted application of the rate laid down for those amounts to all imports of the products concerned into all the Member States until the amounts are used up; whereas, to this end, and in the context of such an arrangement, the actual charges against the amounts could relate only to products entered for free circulation and accompanied by a certificate of origin;

Whereas, if a considerable balance remains in one of the fixed duty-free-amount shares of one or other Member State, it is essential that that Member State returns it in order to prevent a part of the Community amount from remaining unused in one Member State when it could be used in others;

Whereas, in the case of the Community tariff ceilings listed in Annex I, the desired objectives may be attained by applying a method of administration based on the charging at Community level, against the above-mentioned ceilings, of imports of the products concerned as and when these products are entered for free circulation and are accompanied by a certificate of origin; whereas this method of administration must make provision for the reintroduction of the levying of customs duties, in accordance with the appropriate procedures, as soon as the said ceilings are reached at Community level;

Whereas, having regard to the rules applying to the repayment or remission of import or export duties, and in particular to Council Regulation (EEC) No 1430/79 [2] and Commission Regulation (EEC) No 3040/83 [3], a procedure should be laid down to regularize imports actually made within the fixed duty-free amounts and preferential tariff limits opened under this Regulation, and thus provision should be made for the Commission to be able to take appropriate measures; whereas, in order that these regularizations do not lead to tariff ceilings being considerably exceeded, it is appropriate to foresee at the same time that the Commission can take measures to stop the import charges;

Whereas, in the case of the products other than those listed in Annex I, provision should be made for the possibility of reintroducing the levying of customs duties in exceptional cases and in accordance with appropriate procedures and rules; whereas, taking into account the necessity of initiating the examination of certain economic factors relating to the importations of a specific product, it is appropriate that the reintroduction of the levying of custom duties is preceded by an appropriate exchange of information between the Member States and the Commission and an exchange of views;

Whereas such methods of administration call for close and particularly rapid cooperation between Member States and the Commission; whereas such cooperation should be particularly close in view of the need for the Commission to be able to take appropriate measures to reintroduce the levying of customs duties when any of the ceiling are reached;

Whereas it is necessary to establish complete statistics on imports admitted in accordance with the provisions

of the present Regulation and to apply to the collection, preparation and transmission of these statistics Council Regulations (EEC) No 1736/75 (1) and (EEC) No 3367/87 (2);

Whereas, in order to ensure a better transparency of the system, it is necessary to publish both the annual charges recorded against the tariff measures and the tariff ceilings which have reached the 100 % level;

Whereas, for the purposes of applying this Regulation, the rates of conversion into national currencies of the value in ecus in which the preferential amounts are expressed shall be these fixed on the first working day of October 1989 and they shall remain in force from 1 January to 31 December 1990;

Whereas, since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united within and jointly represented by the Benelux Economic Union, all transactions concerning, in particular, the administration of fixed duty-free amounts may be carried out by any one of its members,

HAS ADOPTED THIS REGULATION:

Article 1

1. From 1 January to 31 December 1990 the duties of the Common Customs Tariff shall be totally suspended for products covered by this Regulation.

This Regulation applies to products of Chapters 25 to 49 and 64 to 97 of the Common Customs Tariff, with the exception of products:

— covered by the Treaty establishing the European Coal and Steel Community,

— contained in the list of basic products in part 1 of Annex II,

— entitled to exemption from customs duties in the Common Customs Tariff.

For the products of Annex I this tariff suspension shall be accorded within the framework of fixed duty-free amounts and ceilings. The other products covered by this Regulation shall, as a general rule, be subject to statistical surveillance every three months on the reference base referred to in Article 8.

Spain and Portugal shall apply to the importation of the aforementioned products the customs duties established according to Articles 178 and 365 of the Act of Accession of 1985.

2. The preferences provided for in paragraph 1 shall apply solely:

— to each country or territory listed in column 4 of Annex I, for each of the products or groups of products listed in columns 2 and 3,

— for the same products or groups of products listed in Annex I to every other country or territory listed in Annex III, excepting Yugoslavia,

— to each of the countries or territories listed in Annex III, for other products. As regards Yugoslavia, preference is not granted to products subject to Community tariff ceilings within the framework of the Agreement between the Community and Yugoslavia.

The preferential benefit provided for in paragraph 1 is not applicable to countries listed in footnote (d) to Annex I or to countries listed in part 2 of Annex II for the products specified for those countries.

3. The preferences granted by this Regulation are suspended, on a temporary basis, for products originating in the Republic of Korea.

4. The admittance to the preferential benefit system established by this Regulation is subordinated to the definition of origin of the products which is determined by Regulation (EEC) No 693/88.

5. Fixed duty-free amounts, Community tariff ceilings and other tariff limits, shall be administered in accordance with the provisions set out below.

SECTION 1

Provisions concerning the administration of fixed duty-free amounts relating to products listed in Annex I

Article 2

The total suspension of customs duties within the framework of the fixed duty-free amounts referred to in Article 1 (1) shall be granted to each country or territory listed in column 4 of Annex I, for the products specified in columns 2 and 3 against the name of the country or territory concerned, together with details in column 5 of the individual amount.

Article 3

The fixed duty-free amounts shall be administered by the Commission.

If an importer presents in a Member State a declaration of entry into free circulation, including a request for preferential benefit for a product, accompanied by a certificate of origin and subject to a fixed duty-free amount, and if this declaration is accepted by the cus-

(2) OJ No L 321, 11. 11. 1987, p. 2.

toms authorities, the Member state concerned shall draw, by means of notification to the Commission, a quantity corresponding to its needs.

The requests for drawing, with the indication of the date of acceptance of the said declarations, must be communicated to the Commission without delay.

The drawings are granted by the Commission following the date of acceptance of the declaration of entry into free circulation by the customs authorities of the Member State concerned, to the extent that the balance of the said amount permits.

If a Member State does not use the quantities drawn, it shall return them as soon as possible to the corresponding fixed amount.

If the quantities requested corresponding to a certain date are greater than the available balance of the fixed duty free amount, allocation shall be made on a *pro rata* basis with respect to the requested quantities. Member States shall be informed by the Commission of the drawings made.

Article 4

1. The Commission shall keep account of the quantities drawn by the Member States in accordance with Article 3, and, on receiving the notifications of drawings, shall inform each of them of the extent to which the volumes opened have been used up. It shall ensure that the drawing which uses up any of these amounts is limited to the balance available and, to this end, specify the amount to the Member State which proceeds to the last drawing.

The fact that the fixed amounts have been exhausted shall forthwith be brought to the notice of Member States. This communication shall be the subject of a publication in the *Official Journal of the European Communities* ('C' Series).

2. The Member States shall take all the appropriate measures to ensure that the drawings that they effect pursuant to Article 3 may be charged without interruption against the fixed duty-free amounts.

Each Member State shall guarantee free access to these amounts to the importers of the products in question as far as the balance of the volumes opened permits.

Article 5

By 28 February 1991 at the latest, Member States shall notify the Commission of the final total of the quantities charged at 31 December 1990. Up to the limit of the balance remaining, and at the request of the Member States, the Commission shall authorize the Member States to make any necessary regularization of the quantities charged against imports actually made during the period referred to in Article 1 (1). The Commission shall inform the other Member States thereof.

However, for the products appearing in Annex I, for which half-yearly fixed duty-free amounts have been fixed, the date on which the Member States shall notify the final total of quantities charged shall be:

— 31 August 1990 for the fixed amounts applicable from 1 January to 30 June 1990,

— 28 February 1991 for the fixed amounts applicable from 1 July to 31 December 1990.

SECTION II

Provisions concerning the administration of the Community tariff ceilings relating to products listed in Annex I and the reference base relating to products other than those listed in Annex I

Article 6

Subject to Articles 7 and 8 the preferential tariff ceiling arrangements shall be accorded for products in Annex I, to each of the countries or territories listed in Annex III, other than those listed in column 4 and Yugoslavia. The limits of these ceilings are specified in column 6 against each product or group of products.

Article 7

As soon as the individual ceilings, as fixed in accordance with Article 6 and which are laid down for imports into the Community of products originating in any of the countries or territories referred to in Article 1 (2), are reached at Community level, the levying of customs duties on imports of the products in question originating in each of the countries and territories concerned may be reintroduced until the end of the period referred to in Article 1 (1).

Article 8

Where the preferential importation of products other than those listed in Annex I, originating in one or more beneficiary countries, causes or threatens to cause economic difficulties in the Community, or in a region of the Community, the levying of customs duties may be reintroduced, once the Commission has had an appropriate exchange of information and an exchange of views with the Member States.

The reference base to be considered when examining the situation underlying the damage shall be, as a gen-

eral rule, equal to 6 % of the total imports into the Community, originating from third countries in 1987.

Article 9

1. The Commission shall reintroduce the levying of customs duties in respect of any of the countries or territories referred to in Article 1 (2), under the conditions laid down in Articles 7 and 8, by means of a Regulation.

In the case of such reintroductions, Spain and Portugal shall reintroduce the levying of customs duties that they shall apply to third countries on the date in question.

2. By means of a Regulation, the Commission may, even after 31 December 1990, take measures to stop quantities being charged against one or other preferential tariff limit, if, particularly as a result of regularizations of imports actually made during the period referred to in Article 1 (1), these limits are exceeded.

The Member State which makes such regularization shall communicate the figures of import charges relating to this as and when it occurs to the Commission. The Commission, on receiving these communications, shall inform the other Member States thereof.

Article 10

Articles 7, 8 and 9 shall not apply to the imports in question originating in the countries set out in Annex IV.

SECTION III

General provisions

Article 11

1. For the purposes of the application of this Regulation, the rates of conversion into national currencies of the value in ecus in which the preferential amounts are expressed shall be those fixed on 2 October 1989 and they shall remain in force from 1 January to 31 December 1990 (1).

2. The Member States shall charge the imports of the products in question against their shares of the fixed duty-free amounts, as and when they are entered for free circulation on the basis of the customs value of the said products, accompanied by a certificate of origin in accordance with the rules laid down in Article 1 (4).

3. Imports of the products in question shall be charged against import ceilings or other preferential tariff limits as and when the products are entered for free circulation, on the basis of the customs value of the said products, accompanied by a certificate of origin in accordance with the rules laid down in Article 1 (4).

4. Goods may be charged against a ceiling or other preferential tariff limit only if the certificate of origin referred to in paragraphs 1 and 2 is submitted before the date on which the levying of duties is reintroduced.

5. The extent to which the fixed duty-free amounts, ceilings or other preferential tariff limits have been used up shall be determined at Community level on the basis of the imports charged in accordance with paragraphs 2 and 3.

Article 12

1. The Member States shall, within six weeks of the end of each quarter at the latest, forward to the Statistical Office of the European Communities the relevant statistical data for the products entered for free circulation in the quarter concerned under generalized preferential treatment in accordance with the provisions of the present Regulation. This data, transmitted according to the codes of the combined nomenclature and, where applicable of the Taric, shall show the country of origin, value, quantity and any supplementary units as defined by Regulations (EEC) No 1736/75 and (EEC) No 3367/87.

2. However, in the case of products in Annex I subject to ceilings, the Member States shall forward to the Commission, at its request and by the 11th day of each month at the latest, the list of charges effected during the previous months.

At the Commission's request, when the level of 75 % of the ceiling is reached, the Member States shall forward to the Commission the lists of charges every 10 days; these lists shall be forwarded within five days from the end of each 10-day-period.

3. The Commission shall ensure the publication in the *Official Journal of the European Communities* ('C' Series) of the tariff ceilings as and when they reach 100 % utilization.

It shall see that the Statistical Office of the European Communities ensures the publication of the annual state of import charges.

Article 13

The Member States and the Commission shall cooperate closely to ensure that this Regulation is complied with.

(1) OJ No C 250, 3. 10. 1989, p. 2.

Article 14

This Regulation shall enter into force on 1 January 1990.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 18 December 1989.

For the Council
The President
R. DUMAS

8112 40 11	Unwrought
8112 40 19	Waste and scrap
8112 91 10	Hafnium (celtium) unwrought; waste and scrap
	Niobium (columbium) rhenium
8112 91 31	Unwrought
8112 91 39	Waste and scrap
8112 91 90	Gallium, indium, thallium
8113 00 10	Unwrought cermets, waste and scrap

PART 2 (a)

List of products not listed in Annex I and originating in Romania to which preferences are not granted

CN code	Description
2824	Lead oxides, red lead and orange lead
2849 10 00	Carbides, whether or not chemically defined — Of calcium
2907 11 00	Phenol (hydroxybenzene) and its salts
2912 41 00	Vanillin (4-hydroxy-3-methoxybenzaldehyde)
2914 11 00	Acetone
2917 35 00	Phthalic anhydride
2926 10 00	Acrylonitrile
2936 26 00	Vitamin B_{12} and its derivatives
2941 10 00	Penicillins and their derivatives with a penicillanic acid structure; salts thereof
3102 (except 3102 1010)	Mineral or nitrogenous fertilizers, nitrogenous
3605 00 00	Matches, other than pyrotechnic articles of heading No 3604
3901 10 90	Other polyethylene having a specific gravity of less than 0,94
3902 10 00	Polypropylene, in primary forms
3912	Cellulose and its chemical derivatives, not elsewhere specified or included, in primary forms
3914 00 00	Ion-exchangers based on polymers of heading Nos 3901 to 3913, in primary forms
3915 10 00 3915 90 11	Waste, parings and scrap, of polymers of ethylene and polymers of propylene
3915 90 91	Waste, parings and scrap, of plastics — Other — — Of cellulose and its chemical derivatives
3916 10 00 3916 90 51	Monofilament, rods, sticks and profile shapes of polymers of ethylene and of polymers of propylene
3916 90 90	Monofilament, rods, sticks and profile shapes — Of other plastics — — Other

(a) Notwithstanding the rules for the interpretation of the combined nomenclature, the wording for the description of the products is to be considered as having no more than an indicative value, the coverage of the CN code being decisive within the context of this Annex.
Where ex CN codes are indicated, the CN code and corresponding description taken together are decisive.

CN code	Description
3917 21 10	Tubes, pipes and hoses, rigid
3917 22 10	— Of polymers of ethylene
	— — Seamless and of a length exceeding the maximum cross-sectional dimension, whether or not surface-worked, but not otherwise worked
3917 32 31	— — — Of polymers of ethylene
3917 32 39	— — — — Other
3917 39 15	— — — Of addition polymerization products
ex 3917 29 19	Tubes, pipes and hoses, rigid
	— Of other plastics
	— — Seamless and of a length exceeding the maximum cross-sectional dimension, whether or not surface-worked but not otherwise worked
3917 32 51	Other tubes, pipes and hoses
	— Other, not reinforced or otherwise combined with other materials, without fittings
	— — Seamless and of a length exceeding the maximum cross-sectional dimension, whether or not surface-worked but not otherwise worked
	— — — Other
3917 39 19	— — — Of addition polymerization products
3919 10 10	Adhesive strips, the coating of which consists of unvulcanized natural or synthetic rubber
3919 10 90	Other
	— Other
3919 90 90	Other
	— Other
	— — Other
3919 10 59	Self-adhesive plates, sheets, film foil, tape, strip and other flat shapes, of plastics, whether or not in rolls
	— In rolls of a width not exceeding 20 cm
	— — Other
	— — — Of addition polymerization products
	— — — — Other
3919 90 50	— Other
	— — Other
	— — — Of addition polymerization products
3920 10 11	Other plates, sheets, film, foil and strip of plastics, non-cellular and not reinforced laminated supported or similarly combined with other materials
	— Of polymers of ethylene
	— — Of a thickness not exceeding 0,10 mm and of a specific gravity of
	— — — Less than 0,94
3920 10 19	— — — 0,94 or more
3920 10 90	— — Of a thickness exceeding 0,10 mm
3920 20 10	— Of polymers of propylene
	— — Of a thickness of less than 0,05 mm
3920 20 50	— — Of a thickness of 0,05 mm to 0,10 mm
3920 20 71	
3920 20 79	
3920 20 90	— — Of a thickness exceeding 0,10 mm
3920 72 00	Other plates, sheets, film, foil and strip of plastics, non-cellular and not reinforced, laminated, supported or similarly combined with other materials
	— Of cellulose or its chemical derivatives
	— — Of vulcanized fibre

CN code	Description
3920 73 10	— — — Film in rolls or in strips for cinematography or photography
3920 73 50	— — — Sheets, film or strip, coiled or not, of a thickness of less than 0,75 mm
3920 73 90	Other
3920 79 00	— — Of other cellulose derivatives
3921	Other plates, sheets, film, foil and strip of plastics
	— Cellular
	— — Of other plastics
3921 90 60	— Other
3921 90 90	— — Of addition polymerization products
4410	Particle board and similar board of wood or other ligneous materials
6406 10 11	Parts of footwear
	— Uppers and parts thereof
	— Of leather
	— — — Uppers
6406 10 19	— — — Parts of uppers
6406 10 90	— — Of other materials
6406 20 10	— Outer soles and heels, of rubber or plastics
	— — — Of rubber
6406 20 90	— — — Of plastics
6406 91 00	— — Of wood
6406 99 30	Assemblies of uppers affixed to inner soles or to other sole components, but without outer soles
6406 99 50	
6406 99 90	
7004 10 30	
7004 10 50	
7004 10 90	
7004 90 50	Drawn glass and blown glass, in sheets
	— Other glass
	— — Antique glass
7004 90 70	— — Horticultural sheet glass
7004 90 91	— — Other of a thickness not exceeding 2,5 mm
7004 90 93	Exceeding 2,5 mm but not exceeding 3,5 mm
7004 90 95	Exceeding 3,5 mm but not exceeding 4,5 mm
7004 90 99	Exceeding 4,5 mm
7010 90 10	Preserving jars (sterilizing jars)
7303 00	Tubes and pipes of a kind used in pressure systems
	Other
7307	Tube or pipe fittings (for example couplings, elbows, sleeves), of iron or steel
7310 10 00	Tanks, casks, drums, cans, boxes and similar containers of iron or steel
	— Of a capacity of 50 litres or more
7325	Other cast articles of iron or steel
ex 7326	Other articles of iron or steel, other than parts for wire-mesh collapsible baskets

CN code	Description
7407 10 00	Copper bars, rods and profiles
	— Of refined copper
7407 21 10	— — Of copper-zinc base alloys (brass)
	— — — Bars and rods
ex 7407 21 90	— — — Profiles, excluding hollow profiles
ex 7407 22 10	— — Of copper-nickel base alloys (cupro-nickel), excluding hollow profiles
ex 7407 22 90	— — Of copper-nickel zinc base alloys (nickel silver), excluding hollow profiles
ex 7407 29 00	— — Other, excluding hollow profiles
7408	Copper wire
7606	Aluminium plates, sheets and strip, of a thickness exceeding 0,2 mm
8482 10 90	Ball bearings
	— Other
8482 20 00	Tapered roller bearings, including cone and tapered roller assemblies
8482 30 00	Spherical roller bearings
8482 40 00	Needle roller bearings
8482 50 00	Other cylindrical roller bearings
8482 80 00	Other, including combined ball roller bearings
8482 91 10	Tapered rollers
8482 91 90	Other
8482 99 00	Other
8544 11 10	Winding wire
	— Of copper
	— — Varnished
8544 11 90	— — Other
8544 19 10	— Other
	— — Varnished
8544 19 90	— — Other
8544 20 10	Co-axial cable and other co-axial electric conductors ready for connectors to be fitted or already provided with connectors
8544 20 91	Other
	— For high frequency
8544 20 99	— Other
8544 30 90	Ignition wiring sets and other of a kind used in vehicles, aircraft or ships
	— Other
8544 41 10	Other electric conductors, for a voltage not exceeding 80 V
8544 41 90	— Fitted with connectors
8544 49 11	Insulated with plastic material
8544 49 19	Insulated with other materials
8544 49 91	
8544 49 99	
8544 51 00	Other electric conductors for a voltage exceeding 80 V but not exceeding 1 000 V
	— Fitted with connectors
8544 59 10	With individual conductor wires of a diameter exceeding 0,51 mm
8544 59 91	Insulated with rubber or other elastomers including cross-linked materials
8544 59 93	Insulated with other plastic material
8544 59 99	Insulated with other materials
8544 60 11	Insulated with rubber or other elastomers including cross-linked materials
8544 60 13	Insulated with other plastic material
8544 60 19	Insulated with other materials
8544 60 91	
8544 60 93	
8544 60 99

9401 20 00	Seats of a kind used for motor vehicles
9401 30 10	Swivel seats with variable height adjustment upholstered with backrest and fitted with castors or glides
9401 30 90	Other
9401 40 00	Seats, other than garden seats or camping equipment
9401 50 00	Seats of carre, osier, bamboo or similar materials
9401 61 00	Other seats, with wooden frames, upholstered
9401 69 00	Other
9401 71 00	Other seats, with metal frames, upholstered
9401 79 00	Other
9401 80 00	Other seats
9401 90 90	Parts, other

List of products, not listed in Annex I and originating in China, to which preferences are not granted

CN code	Description
7606	Aluminium plates, sheets and strip, of a thickness exceeding 0,2 mm

List of products, not listed in Annex I and originating in South Korea, to which preferences are not granted

CN code	Description
6912 00 30	Ceramic tableware, kitchenware, other household articles and toilet articles of stoneware
7312	Stranded wire, ropes, cables, plaited bands, slings and the like, of iron or steel, not electrically insulated
8215 10 10 8515 20 10 8515 99 10	Spoons, forks, ladles, skimmers, cake-servers, fish-knives, sugar tongs and similar kitchen or tableware — Sets of assorted articles containing at least one article plated with precious metal — — Of stainless steel — — Other sets of assorted articles — — Of stainless steel — Other — — Of other stainless steel
9201 10 10	Upright pianos, new

List of products, not listed in Annex I and originating in Hong Kong, to which preferences are not granted

CN code	Description
8513	Portable electric lamps designed to function by their own source of energy (for example, dry batteries, accumulators, magnetos) other than lighting equipment of heading No 8512
9111	Watch cases and parts thereof
9502	Dolls representing only human beings
9504	Articles for funfair, table or parlour games, including pin-tables, billiards, special tables for casino games and automatic bowling alley equipment
9506 40	Articles and equipment for table tennis

PART 3 (a)

List of products subject to reference bases corresponding to 2 %

CN code	Description
2833 22 00	Aluminium sulphates
ex 2903 19 00	Hexachloroethane
ex 2904 20 90	5-tert-Butyl-2,4,6-trinitro-m-xylene (musc-xylene)
2915 90 10	Lauric acid
2921 42 10	Halogenated, sulphonated, nitrated and nitrosated derivatives of aniline and their salts
2922 11 00 2922 12 00 2922 13 00	Monoethanolamine, diethanolamine and thriethanolamine and their salts
ex 2922 50 00	D-p-hydroxy-phenylglycine
2924 29 90	Other cyclic amides
2926 10 00	Acrylinitril
2936 25 00	Vitamin B_6 and its derivatives
2936 29 30	Vitamin H and its derivatives
3102 except codes 3102 10 10 3102 50 10	Other mineral or chemical fertilizers, nitrogenous

ex 3207 20 90	Other vitrifiable enamels and glazes, and similar preparations — — Other — — — Borosilicate of lead
3602 00 00	Prepared explosives, other than propellant powders
3605 00 00	Matches, other than pyrotechnic articles of heading No 3604
3901 10 90	Other polyethylene having a specific gravity of less than 0,94
	Polyacetals, other polyethers and epoxide resins, in primary forms; polycarbonates, alkyd resins, polyallyl esters and other polyesters, in primary forms
3907 60 00	— Polyethylene terephthalate
	— Other polyesters
3907 99 00	— — Other
3920 20 10 3920 20 50 3920 20 71 3920 20 79 3920 20 90	Other plates, sheets, film, foil and strip, of plastics, non-cellular and not reinforced, laminated, supported or similarly combined with other materials: — of polymers of propylene

(a) Notwithstanding the rules for the interpretation of the combined nomenclature, the wording for the description of the products is to be considered as having no more than an indicative value, the preferential scheme being determined, within the context of this Annex, by the coverage of the CN code. Where ex CN codes are indicated, the preferential scheme is to be determined by application of the CN code and corresponding description taken together.

CN code	Description
6704	Wigs, false beards, eyebrows and eyelashes, switches and the like, of human or animal hair or of textile materials, articles of human hair not elsewhere specified or included
6907	Unglazed ceramic flags and paving, hearth or wall tiles; unglazed ceramic mosaic cubes and the like, whether or not on a backing
7004	Drawn glass and blown glass, in sheets, whether or not having an absorbent or reflecting layer, but not otherwise worked
7113 11 00	Articles of jewellery and parts thereof, of precious metal or of metal clad with precious metal
7113 19 00	— Of precious metal whether not plated or clad with precious metal — — Of silver, whether or not plated or clad with other precious metal — — Of other precious metal, whether or not plated or clad with precious metal
7307 19 10	Tube or pipe fittings (for example couplings, elbows, sleeves), of iron or steel: of malleable cast iron
ex 7310 29 90	Jerrycans, of a nominal capacity of 20 litres
7317 00	Nails, tacks, drawing pins, corrugated nails, staples (other than those of heading No 8305) and similar articles, of iron or steel, whether or not with heads of other material, but excluding such articles with heads of copper
7409	Copper plates, sheets and strip, of a thickness exceeding 0,15 mm
7606	Aluminium plates, sheets and strip, of a thickness exceeding 0,2 mm
7607	Aluminium foil (whether or not printed or backed with paper, paperboard, plastics or similar backing materials) of a thickness (excluding any backing) not exceeding 0,2 mm
8201 10 00	Spades and shovels
8473 10 00	Parts and accessories of the machines of heading No 8469
	Parts and accessories of the machines of heading No 8470
8473 29 00	— — Other
8473 30 00	Parts and accessories of the machines of heading No 8471

CN code	Description
ex 8504 31 90	Other transformers having a power handling capacity not exceeding 1 kVA — — Other — — — To be used with toys
8504 40 50	Polycrystalline semiconductors
8504 40 93	Accumulator charges
8504 40 99	Static converters — — Other — — — Other — — — — Other
8506	Primary cells and primary batteries
8507 10 91 8507 10 99 8507 20 99	Lead-acid accumulators
8525 30 10	Television cameras with three or more camera tubes
8525 30 91 8525 30 99	— Television cameras — — Other — — — Other
8533	Electrical resistors (including rheostats and potentiometers), other than heating resistors
8534 00	Printed circuits
8535 8536	Electrical apparatus for switching or protecting electrical circuits, or for making connections to or in electrical circuits (for example, switches, fuses, lightning arresters, voltage limiters, surge suppressors, plugs, junction boxes)
8537	Boards, panels (including numerical control panels), consoles, desks, cabinets and other bases, equipped with two or more apparatuses of heading No 8535 or 8536, for electric control or the distribution of electricity, including those incorporating instruments of apparatus of Chapter 90, other than switching apparatus of heading No 8517
8538	Parts suitable for use solely or principally with the apparatus of heading Nos 8535, 8536 or 8537
	Thermionic, cold cathode or photocathode valves and tubes (for example, vacuum or vapour or gas filled valves and tubes, mercury arc rectifying valves and tube, cathode-ray tubes, television camera tubes):
	— Cathode-ray television picture tubes, including video monitor cathode-ray tubes:
	— — Black and white or other monochrome:
8540 12 90	— — — With a diagonal measurement of the screen exceeding 52 cm
	— Television camera tubes; image converters and intensifiers; other photo-cathode tubes:
8540 20 10	— — Television camera tubes
8540 20 30	— — Image converters or intensifiers
8540 20 90	— — Other photo-cathode tubes
	— Microwave tubes (for example, magnetrons, klystrons, travelling wave tubes, carcinotrons), excluding grid-controlled tubes

COUNCIL REGULATION (EEC) No 3897/89

of 18 December 1989

applying generalized tariff preferences for 1990 in respect of textile products originating in developing countries

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, in particular Article 113,

Having regard to the proposal from the Commission (1),

Having regard to the opinion of the European Parliament (2),

Having regard to the opinion of the Economic and Social Committee (3),

Whereas in accordance with its offer made within the context of the United Nations Conference on Trade and Development (UNCTAD), the European Economic Community opened generalized tariff preferences, commencing in 1971, notably in respect of finished and semi-finished industrial products from developing countries; whereas the initial 10-year period of application of this system of preferences ended on 31 December 1980;

Whereas the positive role played by this system in improving access for developing countries to the markets of the preference-giving countries was recognized at the ninth session of the UNCTAD Special Committee on Preferences; whereas it was there agreed that the objectives of the system of generalized preferences would not be fully attained by the end of 1980, that it should consequently be prolonged beyond the initial period and that an overall review of the system should take place in 1990;

Whereas the Community has therefore decided to apply generalized tariff preferences, in the context of the conclusions agreed in UNCTAD in accordance with the intention expressed in the said Committee, in particular by all the preference-giving countries;

Whereas the temporary and non-binding nature of the system means that the offer can be withdrawn wholly or in part at a later date, thus maintaining the possibility of remedying any unfavourable situations which might arise in the African, Caribbean and Pacific States (ACP States) as a result of the system's implementation;

Whereas, however, most of the preference-giving countries exclude textile products from preferential treatment; whereas, under the Community scheme of generalized preferences, these products have always been covered by special arrangements pursuant to which, for cotton textile and similar products, the preferences were originally granted in the form of duty-free ceilings only to those beneficiaries under the generalized preferences scheme which were signatories to the Long-Term Arrangement regarding International Trade in Cotton Textiles (LTA) or which undertook, *vis-à-vis* the Community, commitments similar to those existing under that Arrangement;

Whereas the Long-Term Arrangement has been replaced from 1980 onwards by the Arrangement regarding International Trade in Textiles (MFA), and the Community has therefore, in the case of products covered by the MFA, reserved preferences in the form of duty-free ceilings, for products originating in those countries or territories which signed Bilateral Agreements, in the framework of the MFA, providing for quantitative limitation of their exports of certain textile products to the Community, or in those countries which undertook similar commitments *vis-à-vis* the Community; whereas, such commitments have been undertaken by Bolivia, Chile, Costa Rica, Cuba, Ecuador, El Salvador, Honduras, Iran, Nicaragua, Paraguay and Venezuela; whereas for these products, it is therefore desirable that the Community should continue to apply the generalized tariff preferences on the basis of the same principles until the expiry of the MFA and the Bilateral Agreements concluded with certain supplier countries; whereas it should be provided that countries and territories accepting the renewal of such agreements or giving such commitments after the date of adoption of this Regulation and before 1 January 1990 will be accorded preferential treatment as from 1 February 1990 in respect of the entire volume provided for in this Regulation; whereas countries and territories which accept the renewal of the said agreements or enter into similar commitments after 1 January 1990 will be accorded preferential treatment from the first day of the second month following the date of commitment, in respect of a volume calculated in proportion to the period of the year from the first day of the month following the date of the commitment until 31 December 1990; whereas, it is appropriate, in view of their highly sensitive nature, to open for certain categories included in Annex I equal six-monthly tariff quotas;

Whereas, in view of the special nature which trade in the products concerned may have, it would appear that

(1) OJ No C 165, 3. 7. 1989, p. 45.
(2) OJ No C 256, 9. 10. 1989, p. 150.
(3) OJ No C 298, 27. 11. 1989, p. 46.

the volumes of preferential imports should be determined in terms of tonnes, pieces, or pairs, as appropriate;

Whereas according to the case-law of the Court of Justice it would be illegal to allocate Community quotas among the Member States unless compelling circumstances of an administrative, technical or economic character make it impossible to do otherwise; whereas in addition in cases where allocation is decided upon a mechanism is to be provided so as to protect the integrity of the Common Customs Tariff;

Whereas certain economic and administrative constraints exist which justify in conformity with the Commission's proposal the continued allocation among the Member States of the Community quotas in the textile sector;

Whereas, in order to ensure that each of the countries or territories referred to above has access to the preferential volumes, quotas and separate tariff ceilings for each beneficiary should be specified for each category of products, and in view of the links which continue to exist with international control of trade in textiles, it is appropriate to allocate these quotas between the Member States according to the scale contained within the MFA framework, establishing for each of the Member States initial participation percentages as follows:

Benelux	9,5 %
Denmark	2,7 %
Germany	25,5 %
Greece	1,5 %
Spain	7,5 %
France	16,5 %
Ireland	0,8 %
Italy	13,5 %
Portugal	1,5 %
United Kingdom	21,0 %

Whereas, to take account of future import trends in the various Member States in respect of the tariff quotas given in Annex I and to mitigate any inadequacy in the initial allocation, the quotas should be divided into two tranches, the first being apportioned among Member States and the second held as a reserve to cover the subsequent requirements of Member States which have exhausted their initial shares;

Whereas, moreover, the reserve thus constituted tends to avoid making the system of utilization of the quota excessively rigid, to the detriment of each of the developing countries concerned, and contributes to achieving the aim already mentioned of improving the system of generalized preferences; whereas, to this end and to accord importers in each Member State some degree of security, the first tranche of the Community quota should be fixed at 70 % of the quota volumes;

Whereas if, in the course of quota period, the Community reserve is almost fully used, it is essential that the Member States return to the said reserve all of the unused part of their shares, in order to ensure that part of a Community tariff quota does not remain unused in a Member State when it could be utilized in others; whereas it is appropriate for products which are not subject to six-monthly quotas, that these returns are made in two stages;

Whereas for other textile products and apparel listed in Annex II, it appears possible to grant the preferences to the countries or territories which are normally beneficiaries in the other industrial sectors;

Whereas, for jute and coir products, it was understood that the preferences would be granted only where special arrangements had been made with the exporting developing countries; whereas these arrangements have hitherto concerned India and Sri Lanka for coir products, and India and Thailand for jute products; whereas, it would be appear desirable to maintain also the preferential advantage to the least-developed countries in respect of jute and coir;

Whereas by Council Regulation (EEC) No 1672/89 [1] the customs duties applicable under the Common Customs Tariff to yarn of CN code 5307 were reduced on a most-favoured nation basis to zero; whereas for the sake of greater clarity and administrative simplicity it is appropriate to exclude those products from Annex III;

Whereas both Poland and Hungary have seen their economic situation decline to the point where they face similar problems as those countries to which the generalized preferences have applied in the past; whereas they should therefore benefit from the system of generalized preferences in order to increase their export earnings with a view to stimulating their economic development, to promote their industrialization and to accelerate their rate of growth; whereas the benefit should only be accorded for the duration of their economic restructuring, estimated at five years, without prejudice to the annual character of the Community's system of generalized preferences;

Whereas the Republic of Korea does not treat the Community on an equal footing with other trade partners and whereas it has taken discriminatory measures in respect of the Community in the sphere of the protection of intellectual property; whereas therefore it is inappropriate that the Republic of Korea should benefit from the system of generalized tariff preferences as long as this situation continues;

Whereas the MFA agreement was renewed for a period of five years from 1 August 1986; whereas in the context of the five-yearly review of the system of generalized preferences scheme, the Community decided to initiate a revision of the textile scheme in 1987, with a

[1] OJ No L 169, 19. 6. 1989, p. 1.

view to in particular, an improvement thereof, a better distribution and management simplifications;

Whereas the preferential advantages are not used equally by beneficiary countries and it is necessary to ensure a more balanced usage of these advantages, particularly for the less competitive countries, in order to improve preferential access for these latter countries, it is necessary to institute a new phase of differentiation between beneficiary countries of the preferential benefits; this differentiation comprises withdrawal of the abovementioned advantages for certain product categories originating in the most competitive countries the criterion adopted being based on the competition capacity of the beneficiary country concerned, the capacity being expressed, for individual product categories, by that country's participation in total Community imports; whereas for the application of this criterion a 10 % share for the products listed in Annex I, and a 20 % share for the products listed in Annex II, of the total extra-EEC imports averaged over three years (1985, 1986, 1987) is taken; whereas it is necessary to make adjustments to this criterion, as far as the products listed in Annex I are concerned, when:

— the gross national product *per capita* of the country concerned is low and the country does not provide more than 5 % of total Community imports of textile products and apparel,

— the total exports of textile products of the country concerned comprise almost exclusively a single product;

Whereas particular measures are applicable, according to the sensitivity of products, to countries with a low gross national product *per capita* whose share in the total Community imports of textile products exceed 5 %;

Whereas the level of economic development of the country concerned has also been taken into account for these products;

Whereas, according to this method of calculation, for each beneficiary country except Hungary, Poland and the most competitive countries, the quantity opened corresponds in general to 1 % of total Community imports of the category of products in question; whereas for Hungary and Poland the quantity opened corresponds to 0,3 % of total Community imports with respect to certain highly sensitive categories of products and 0,5 % for other categories whereas for the most competitive countries the quantity opened corresponds to 0,1 % for imports of categories 1 to 8 and 0,2 % for imports of other categories;

Whereas the other textile products and apparel listed in Annex II can be attained by providing for each category of product individual tariff limits per beneficiary, corresponding in general to 5 % of total Community imports of the product categories in question; whereas allocation amongst Member States is not appropriate where Community measures are concerned;

Whereas the fixed duty-free amounts and ceilings meet this objective; whereas, as regards fixed duty free amounts, it is necessary to provide for Member States to effect drawings on the quantities opened by means of quantities corresponding to their needs;

Whereas, if a considerable balance remains in one of the fixed duty-free amount shares of one or other Member State, it is essential that that Member State returns it in order to prevent a part of the Community amount from remaining unused in one Member State when it could be used in others; whereas, it is appropriate, in respect of certain sensitive products, for those returns to be effected in two stages;

Whereas, in the multilateral trade negotiations, in accordance with paragraph 6 of the Tokyo Declaration, the Community reaffirmed that special treatment should be granted, wherever this is possible, to the least-developed developing countries appearing on the list in Annex VI;

Whereas the benefit of such preferential tariff treatment should be reserved for products originating in the countries or territories under consideration, the concept of 'originating products' being determined in accordance with Regulation (EEC) No 693/88 [1];

Whereas the Community preference arrangements applicable to Yugoslavia for textile products result exclusively from the provisions of the Agreement between the European Economic Community and the Socialist Federal Republic of Yugoslavia [2];

Whereas, since 1 March 1986, the Kingdom of Spain and the Portuguese Republic have applied the Community system of generalized preferences, in compliance with Articles 178 and 365 of the Act of Accession;

Whereas, consequently, for 1990 the Community should open:

— for each of the categories of products covered by Annex I, tariff quotas allocated amongst the Member States for each of the countries and territories specified in column 5 of that Annex, and Community tariff ceilings at a zero rate of duty for each of the other countries and territories listed in Annex IV; the limits of the quantities opened are indicated in columns 6 and 7 or 8 of Annex I,

— for each category of products shown in Annex II and for each of the countries and territories speci-

fied in Annex V, excluding Yugoslavia, fixed amounts and Community tariff ceilings at a zero rate of duty; the limits of the quantities opened are specified in columns 6 and 7 of the said Annex II,

— in respect of the manufactured jute and coir products listed in Annex III, a total suspension of customs duties for the beneficiary countries specified in column 3 against each of the categories of products shown in column 2;

Whereas, as regards the Community tariff quotas allocated among the Member States, and the fixed duty-free amounts:

— it is necessary to guarantee to all importers equal and continuous access to the abovementioned quotas and fixed duty-free amounts and uninterrupted application of the rates laid down for them to all imports of the products concerned into all Member States until they have been used up,

— drawings against the quotas and fixed duty-free amounts can only be made for goods entered for free circulation accompanied by a certificate of origin;

Whereas, as regards the Community tariff ceilings the objectives sought may be achieved by applying a method of administration based on the charging, at Community level, of imports of the products in question against the ceilings as and when these products are entered for free circulation and are accompanied by a certificate of origin; whereas this method of administration must make provision for the reintroduction of the levying of customs duties as soon as the said ceilings are reached at Community level;

Whereas the methods of administration for the products listed in Annexes I and II call for close and particularly rapid cooperation between Member States and the Commission, which must, in particular, be able to keep under observation the extent to which charges are made against the fixed duty free amounts and the ceilings and inform Member States thereof; whereas such cooperation should be particularly close in view of the need for the Commission to be able to take appropriate measures to reintroduce customs duties, when any of the ceilings is reached at Community level;

Whereas, having regard to the rules applying to the repayment or remission of import or export duties, and in particular to Council Regulation (EEC) No 1430/79 [1] and Commission Regulation (EEC) No 3040/83 [2], a procedure should be laid down to regularize imports actually made within the preferential tariff limits opened under this Regulation and thus provision should be made for the Commission to be able to take appropriate measures; whereas, in order to avoid such regularization causing excessive tariff ceiling overruns, provision should at the same time be made for the Commission to be able to terminate set-offs;

Whereas it is necessary to establish complete statistics on imports admitted in accordance with the provisions of this Regulation and to apply to the collection, preparation and transmission of these statistics Council Regulations (EEC) No 1736/75 [3] and No 3367/87 [4];

Whereas, since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united within and jointly represented by the Benelux Economic Union, any measure concerning the administration of the shares allocated to that economic union or drawings by it on a fixed duty-free amount may be carried out by any one of its members,

HAS ADOPTED THIS REGULATION:

Article 1

1. From 1 January to 31 December 1990, the Common Customs Tariff duties shall be:

— totally suspended within the framework of tariff quotas, fixed duty-free amounts and Community tariff ceilings in respect of the products listed in Annexes I and II,

— totally suspended in respect of the jute and coir products listed in Annex III.

Spain and Portugal shall apply on the imports of products referred to above the customs duties established in accordance with Articles 178 and 365 of the 1985 Act of Accession.

2. The arrangements laid down in paragraph 1 shall apply only in respect of products originating in the countries and territories:

— indicated in column 5 of Annex I or listed in Annex VI, as regards the products in Annex I,

— listed in Annex V, as regards the products in Annex II, with the exception of Yugoslavia,

— indicated in column 4 of Annex III, for each of the category of products indicated in column 2.

3. The preferences granted by this Regulation are suspended, on a temporary basis, for products originating in the Republic of Korea.

(2) OJ No L 297, 29. 10. 1983, p. 13.
(3) OJ No L 183, 14. 7. 1975, p. 3.
(4) OJ No L 321, 11. 11. 1987, p. 3.

4. Preferential entry as provided for in this Regulation shall be subject to conformity with the rules of the origin of products determined by Regulation (EEC) No 693/88.

5. The tariff quotas, fixed duty-free amounts, and tariff ceilings shall be administered in accordance with the following provisions:

SECTION I

Provisions concerning the administration of the Community tariff quotas

Article 2

1. The total suspension of customs duties within the framework of the Community tariff quotas referred to in Article 1 (1) concerns the categories of products in Annex I for each of which the volume of the quota is specified individually in that Annex with regard to certain beneficiary countries or territories of origin listed in column 5 of the same Annex.

2. The period for which the tariff quotas are opened shall be from 1 January to 31 December 1990, except when it is indicated in Annex I that they are opened as two equal, six-monthly quotas.

Article 3

1. A first tranche of 70 % of each of the Community tariff quotas listed in Annex I, the amount of which is shown in Annex I, shall be apportioned among the Member States in accordance with the following scale in percentages:

Benelux	9,5 %
Denmark	2,7 %
Germany	25,5 %
Greece	1,5 %
Spain	7,5 %
France	16,5 %
Ireland	0,8 %
Italy	13,5 %
Portugal	1,5 %
United Kingdom	21,0 %

2. Each Member State shall determine its own share by applying the appropriate percentage to the volumes indicated in Annex I rounding up the result to the next higher unit (kilogram, piece or pair) if necessary.

3. The second tranche of each of the tariff quotas shall constitute the reserve specified in each case in Annex I.

Article 4

Where a Member State has used all of its quota share it draws on the reserve in accordance with the procedures laid down in Article 8 relating to fixed duty-free amounts.

Article 5

1. When at least 80 % of the reserve of one of the tariff quotas, as defined in Article 3 (3), has been used up, the Commission shall inform the Member States thereof.

2. It shall also notify Member States in this case of the date from which drawings on the Community reserve must be made according to the provisions laid down in Article 8 relating to fixed duty-free amounts.

3. Within a time limit fixed by the Commission, following the date referred to in paragraph 2, each Member State shall be required to return to the reserve from its quota share the quantity or part of the quantity, in accordance with paragraphs 4 and 5, which has not been used within the meaning of Article 14 (1) on that date.

4. With respect to the tariff quotas in Annex I, except for the six-monthly tariff quotas, the quantity to be returned to the reserve shall be determined as follows:

— when paragraph 1 applies for the first time, one half of the quantity which has not been used,

— when paragraph 1 next applies, the whole remainder which has not been used.

5. With respect to the six-monthly quotas in Annex I the quantity to be returned shall be the whole quantity which has not been used.

Article 6

The Member States shall take all appropriate measures to ensure free access to the shares which have been allocated to them for importers of the products in question.

Article 7

By 28 February 1991 at the latest, Member States shall notify the Commission of the final total of the quantities charged and any balance of the shares still unused at 31 December 1990. Up to the limit of the balance remaining, and at the request of the Member States, the Commission shall authorize the Member States to make any necessary regularization of the quantities charged against imports actually made during the period referred to in Article 1 (1). The Commission shall inform the other Member States thereof.

SECTION II

Provisions concerning the administration of fixed duty-free amounts

Article 8

1. The total suspension of customs duties within the framework of the fixed duty-free amounts referred to in Article 1 (1) concerns the categories of products of Annex II, for each of which the volume of the amount is specified individually in column 6 of that Annex, with regard to the countries or territories specified in column 5 of the same Annex.

2. Fixed duty-free amounts shall be administered by the Commission. If an importer presents in a Member State a declaration of entry into free circulation, including a request for preferential benefit for a product subject to a fixed duty-free amount and if this declaration is accepted by the customs authorities the Member State concerned shall draw, by means of notification to the Commission, a quantity corresponding to its needs.

The requests for drawing, with the indication of the date of acceptance of the said declarations, must be communicated to the Commission without delay.

The drawings are granted by the Commission following the date of acceptance of the declaration of entry into free circulation by the customs authorities of the Member State concerned, to the extent that the balance of the said amount permits.

If a Member State does not use the quantities drawn, it shall return them as soon as possible to the corresponding fixed amount.

If the quantities requested corresponding to a certain date are greater than the available balance of the fixed duty-free amount, allocation shall be made on a *pro rata* basis with respect to the requested quantities. Member States shall be informed by the Commission of the drawings made.

Article 9

1. The Commission shall keep account of the quantities drawn by the Member States conforming to Article 9 and shall inform each of them as soon as it receives notification of the exhausting of the volumes opened. It shall ensure that the drawing which uses up any of these amounts is limited to the balance available and, to this end, specify the amount to the Member State which proceeds to the last drawing.

The fact that the fixed amounts have been exhausted shall forthwith be brought to the notice of Member States.

This communication shall be the subject of a publication in the *Official Journal of the European Communities* ('C' series).

2. The Member State shall take all the appropriate measures to ensure that the drawings that they effect pursuant to Article 8 may be charged without interruption against the fixed duty-free amounts.

Each Member state shall guarantee free access to these amounts to the importers of the products in question as far as the balance of the volumes opened permits.

SECTION III

Provisions concerning the administration of the Community tariff ceilings

Article 10

Subject to Articles 11 and 12, preferential tariff treatment shall be accorded for each category of products subjected in Annexes I and II to individual ceilings within the limits of the quantities specified respectively:

— in column 8 of Annex I, to certain countries or territories specified in column 5 of this Annex or listed in Annex VI,

— in column 7 of Annex II, to certain countries or territories specified in column 5 of this Annex, with the exception of Yugoslavia.

Article 11

As soon as the individual ceilings determined in accordance with Article 10 are reached at the Community level, the levying of customs duties on imports of the products in question originating in each of the countries or territories concerned may at any time be reintroduced until the end of the period referred to in Article 1 (1).

Article 12

The Commission shall reintroduce, by means of a Regulation, the levying of customs duties in respect of any one of the countries and territories referred to in Article 1 (2), under the conditions laid down in Article 11.

In the case of such a reintroduction, Spain and Portugal shall reintroduce the levying of customs duties that they shall apply to third countries on the date in question.

By means of a Regulation, the Commission may, even after 31 December 1990, take measures to stop quantities being charged against the Community tariff ceilings if, particularly as a result of regularizations of

imports actually made during the period referred to in Article 1 (1), these ceilings are exceeded.

The Member State which initiates such regularizations shall communicate to the Commission as and when the figures of import charges relating thereto. The Commission, on receiving these communications, shall inform the other Member States thereof.

SECTION IV

General provisions

Article 13

Articles 2, 8, 11 and 12 shall not apply to the countries listed in Annex VI.

Article 14

1. Imports of the products in question shall be charged against the quota shares and the shares of the fixed duty-free amounts of Member States and the Community ceilings as and when the products are entered for free circulation and are accompanied by a certificate of origin pursuant to the rules referred to in Article 1 (4).

2. Goods may be charged against a ceiling or admitted under a quota share only if the certificate of origin referred to in paragraph 1 is presented before the date on which the levying of duties is reintroduced.

3. The extent to which the tariff quotas, fixed duty-free amounts and Community ceilings have been used up shall be determined at Community level on the basis of the imports charged in accordance with paragraph 1.

Article 15

1. The Member States shall, within six weeks of the end of each quarter at the latest, forward to the Statistical Office of the European Communities the relevant statistical data for the products entered for free circulation in the quarter concerned under generalized preferential treatment in accordance with the provisions of the present Regulation. This data, transmitted according to the codes of the combined nomenclature and where applicable of the Taric shall show the country of origin, value, quantity and any supplementary units as defined by Regulations (EEC) No 1736/75 and (EEC) No 3367/87.

2. However, in the case of products subject to quotas, the Member states shall, by the eleventh day of each month, at the latest, forward to the Commission the list of charges effected during the previous month.

In the case of products subject to ceilings, the Member States shall forward to the Commission, at its request and under the same conditions, the list of charges effected during the previous month.

At the Commission's request, when the level of 75 % of the ceiling is reached, the Member States shall forward to the Commission the lists of charges every 10 days; these lists shall be forwarded within five days from the end of each 10-day period.

3. The Commission shall ensure the publication in the *Official Journal of the European Communities* ('C' series) the tariff ceilings as and when they reach 100 % utilization.

It shall see that the Statistical Office of the European Communities ensures the publication of the annual state of import charges.

Article 16

The Member States and the Commission shall cooperate closely to ensure compliance with this Regulation.

Article 17

This Regulation shall enter into force on 1 January 1990.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 18 December 1989.

For the Council
The President
R. DUMAS

COUNCIL REGULATION (EEC) No 3898/89

of 18 December 1989

applying generalized tariff preferences for 1990 in respect of certain agricultural products originating in developing countries

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 thereof,

Having regard to the proposal from the Commission (1),

Having regard to the opinion of the European Parliament (2),

Having regard to the opinion of the Economic and Social Committee (3),

Whereas within the context of UNCTAD, the European Economic Community offered to grant tariff preferences on certain agricultural products of Chapters 1 to 24 of the Common Customs Tariff which originate in developing countries: whereas the preferential treatment proposed in that offer consists, in respect of certain goods which are subject to the trade arrangements laid down in Regulation (EEC) No 3033/80 (4), of a reduction in the fixed component of the charge applicable to such goods by virtue of that Regulation, and, in respect of products which are subject to the single customs duty, of a reduction in such duty; whereas preferential imports of the products concerned should be effected in general without quantitative restrictions;

Whereas the positive role played by this system in improving access for developing countries to the markets of the preference-giving countries was recognized at the ninth session of the UNCTAD Special Committee on Preferences; whereas it was there agreed that the objectives of the system of generalized preferences would not be fully achieved by the end of 1980, that consequently it should be prolonged beyond the initial period and that an overall review of the system should take place in 1990;

Whereas it is desirable therefore that the Community continue to apply generalized tariff preferences, in the context of the conclusions reached in UNCTAD and in accordance with the intentions expressed in the said Committee in particular by all the preference-giving countries;

Whereas the temporary and non-binding nature of the system means that the offer may be withdrawn wholly or in part at a later stage, thus maintaining the possibility of remedying any unfavourable situations which might arise, including in the African, Caribbean and Pacific States (ACP States) following the implementation of the system;

Whereas experience from the application of the Community scheme in the first 15 years has shown that the scheme has to an appreciable extent achieved its intended objectives; whereas it is therefore appropriate to maintain its fundamental features, namely a reduction in customs duties without any restriction in the quantities imported for certain agricultural products listed in Annex II, and a reduction in customs duties within the limits of Community fixed reduced-duty amounts for preserved pineapples, extracts of coffee and tobacco;

Whereas, since 1 March 1986, the Kingdom of Spain and the Portuguese Republic have applied the Community system of generalized preferences, in compliance with Articles 178 and 365 of the Act of Accession;

Whereas in the multilateral trade negotiations, in accordance with paragraph 6 of the Tokyo Declaration, the Community reaffirmed that special treatment should, whenever possible, be granted to the least developed among the developing countries: whereas, therefore, the agricultural products listed in Annex IV, originating in the least-developed developing countries which appear in the list in Annex V to this Regulation, should be totally exempt from customs duties;

Whereas, having regard to the rules applying to the repayment or remission of import or export duties, and in particular to Council Regulation (EEC) No 1430/79 (5) and Commission Regulation (EEC) No 3040/83 (6), a procedure should be laid down to regularize imports actually made within the fixed reduced-duty amounts opened under this Regulation and thus provision should be made for the Commission to be able to take appropriate measures;

Whereas such methods of administration call for close and particularly rapid cooperation between the Member States and the Commission;

(1) OJ No C 165, 3. 7. 1989, p. 86.
(2) OJ No C 256, 9. 10. 1989, p. 150.
(3) OJ No C 298, 27. 11. 1989, p. 46.
(4) OJ No L 323, 29. 11. 1988, p. 1.
(5) OJ No L 175, 12. 7. 1979, p. 1.
(6) OJ No L 297, 29. 10. 1983, p. 13.

Whereas it is expedient that the Community should authorize the importation of the products referred to in Annex II, originating in the countries and territories listed in Annex III, subject to the customs duties given in respect of each of them, without quantitative limitations; whereas the benefit of such preferential terms should be reserved for products originating in the countries and territories under consideration, the concept of 'originating products' being adopted in accordance with Commission Regulation (EEC) No 693/88 (1);

Whereas both Poland and Hungary have seen their economic situation decline to the point where they face similar problems, as those countries to which the generalized preferences have applied in the past; whereas they should therefore benefit from the system of generalized preferences in order to increase their export earnings with a view to stimulating their economic development, to promote their industrialization and to accelerate their rate of growth; whereas the benefit should only be accorded for the duration of their economic restructuring, estimated at five years, without prejudice to the annual character of the Community's system of generalized preferences;

Whereas the Republic of Korea does not treat the Community on an equal footing with other trade partners and whereas it has taken discriminatory measures in respect of the Community in the sphere of the protection of intellectual property; whereas therefore it is inappropriate that the Republic of Korea should benefit from the system of generalized tariff preferences as long as this practice continues;

Whereas it is necessary to establish complete statistics on imports admitted in accordance with the provisions of this Regulation and to apply to the collection, preparation and transmission of these statistics Council Regulations (EEC) No 1736/75 (2) and (EEC) No 3367/87 (3);

Whereas by Council Regulation (EEC) No 1672/89 (4) the customs duties applicable under the Common Customs Tariff to a number of tropical products were reduced on a most-favoured-nation basis; whereas for the sake of greater clarity and administrative simplicity it is appropriate to exclude from the lists of products in Annexes II and IV hereto those products which are the subject of a rate of customs duty on a most-favoured-nation basis equal to or lower than the rate of customs duty which would be applicable under the generalized tariff preferences;

Whereas, since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united within and jointly represented by the Benelux Economic Union, any measure concerning the administration of the fixed reduced-duty amount shares allocated to that economic union may be carried out by any one of its members,

HAS ADOPTED THIS REGULATION:

Article 1

1. From 1 January to 31 December 1990, the Common Customs Tariff duties shall be:

— partially suspended within the framework of global fixed reduced-duty amounts in respect of the products listed in Annex I,

— partially or totally suspended in respect of the products listed in Annex II,

— totally suspended in respect of the products listed in Annex IV.

Spain and Portugal shall apply on the imports of products referred to above the customs duties established in accordance with Articles 178 and 365 of the 1985 Act of Accession.

2. The arrangements laid down in paragraph 1 shall apply only in respect of products originating in the countries and territories:

— listed in Annex III, as regards the products in Annexes I and II,

— listed in Annex V, as regards the products in Annex IV.

3. The preferences granted by this Regulation are suspended, on a temporary basis, for products originating in the Republic of Korea.

The benefit of the fixed reduced-duty amounts opened for imports of unmanufactured tobaccos specified in Annex I is not granted for products originating in China.

4. Preferential entry as provided for in this Regulation shall be subject to conformity with the rules of the origin of products determined by Regulation (EEC) No 693/88.

Entry under the fixed reduced-duty amounts opened for imports of unmanufactured Virginia 'flue-cured' type tobaccos shall be subject to the production of a certificate of authenticity issued by one of the authorities listed in Annex II to Commission Regulation (EEC) No 4128/87 (5).

Pisco and singani, listed in Annexes II and IV and falling within CN code ex 2208 90 51, and tequila falling within CN code ex 2208 90 53, shall qualify for the preferential system subject to the production of an attest-

ation of authenticity in the certificate of origin and drawn up according to the procedure referred to in Regulation (EEC) No 693/88.

5. The fixed reduced-duty amounts and the partial or total suspensions of duties, without quantitative limitations, shall be administered in accordance with the following provisions.

SECTION I

Provisions concerning the administration of the global fixed reduced-duty amounts

Article 2

Community imports of the products listed in Annex I shall benefit from the customs duties specified for each product, within the framework of the fixed reduced-duty amounts, of which the volumes are specified in column 5 of that Annex.

Those imports which enjoy exemption from customs duties under other preferential tariff arrangements granted by the Community shall not be charged against these fixed reduced-duty amounts.

Article 3

The fixed reduced-duty amounts shall be administered by the Commission.

If an importer presents in a Member State a declaration of entry into free circulation, including a request for preferential benefit for a product, accompanied by a certificate of origin and subject to a fixed reduced-duty amount and if this declaration is accepted by the customs authorities, the Member State concerned shall draw, by means of notification to the Commission, a quantity corresponding to its needs.

The requests for drawings, with the indication of the date of acceptance of the said declarations, must be communicated to the Commission without delay.

The drawings are granted by the Commission following the date of acceptance of the declaration of entry into free circulation by the customs authorities of the Member State concerned, to the extent that the balance of the said amount permits.

If a Member State does not use the quantities drawn, it shall return them as soon as possible to the corresponding fixed amount.

If the quantities requested corresponding to a certain date are greater than the available balance of the fixed reduced-duty amount, allocation shall be made on a *pro rata* basis with respect to the requested quantities.

Member States shall be informed by the Commission of the drawings made.

Article 4

1. The Commission shall keep account of the quantities drawn by the Member States conforming to Article 3 and shall inform each of them as soon as it receives notification of the exhausting of the volumes opened. It shall ensure that the drawing which uses up any of these fixed amounts is limited to the balance available and, to this end, specify the amount to the Member State which proceeds to the last drawing.

The fact that the fixed amounts have been exhausted shall forthwith be brought to the notice of Member States.

This communication shall be the subject of a publication in the *Official Journal of the European Communities* ('C' Series).

2. The Member States shall take all the appropriate measures to ensure that the drawings that they effect pursuant to Article 3 may be charged without interruption against the fixed reduced-duty amounts.

Each Member State shall guarantee free access to these fixed amounts to the importers of the products in question as far as the balance of the volumes opened permits.

Article 5

By 28 February 1991 at the latest, Member States shall notify the Commission of the final total of the quantities charged at 31 December 1990. Up to the limit of the balance remaining, and at the request of the Member States, the Commission shall authorize the Member States to make any necessary regularization of the quantities charged against imports actually made during the period referred to in Article 1 (1). The Commission shall inform the other Member States thereof.

SECTION II

Products of Chapters 1 to 24 of the Common Customs Tariff imported without quantitative limitations

Article 6

1. Community imports of the products listed in Annex II originating in the countries listed in Annex III shall benefit from the customs duties specified for each product, without prejudice to the levying of additional duties which may be applicable.

2. The products listed in Annex IV originating in the countries listed in Annex V shall be imported into the Community free of customs duties without prejudice to

the levying of additional duties which may be applicable.

Article 7

Where the Commission finds that imports of products benefiting from the treatment provided for in Article 6 are imported into the Community in quantities or at prices which place or are likely to place Community producers of similar or directly competitive products at a serious disadvantage, the levying of customs duties applied within the Community may be reintroduced in whole or in part on imports of the products in question from the country or countries or territory or territories which are the cause of such disadvantage. Such measures may also be taken in the event of actual or potential serious disadvantage which is confined to a single region of the Community.

Article 8

1. The Commission may decide, by means of a Regulation, to reintroduce the levying of customs duties for a specified period, in order to ensure that Article 7 is applied.

2. Where action on the part of the Commission is requested by a Member State, the former shall give its decision within a period of not more than 10 working days from the date of receipt of the request and shall inform the Member State of this decision.

3. Each Member State may refer the measure taken by the Commission to the Council within a period of 10 working days following the date on which it was notified. The fact that the matter is referred to the Council shall not cause the measure to be suspended. The Council shall meet immediately. It may, acting on a qualified majority, amend or rescind the measure in question.

Article 9

Articles 7 and 8 shall prejudice neither the application of the safeguard clauses adopted under the common agricultural policy pursuant to Article 43 of the Treaty nor those adopted under the common commercial policy pursuant to Article 113 of the Treaty, or any other safeguard clauses which might possibly be applied.

SECTION III

General provisions

Article 10

The Member States shall, within six weeks of the end of each quarter, at the latest, forward to the Statistical Office of the European Communities the statistical results for the products entered for free circulation in the reference quarter under a generalized preferential, treatment in accordance with the provisions of the present Regulation. These results, transmitted according to the headings of the combined nomenclature and where applicable of the Taric shall show the country of origin, value, quantity and any supplementary units as defined by Regulations (EEC) No 1736/75 and (EEC) No 3367/87.

Article 11

The Commission shall see that the Statistical Office of the European Communities ensures the publication of the annual statements of set-off.

Article 12

Member States and the Commission shall cooperate closely to ensure compliance with this Regulation.

Article 13

This Regulation shall enter into force on 1 January 1990.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 18 December 1989.

For the Council

The President

R. DUMAS

COUNCIL REGULATION (EEC) No 3899/89

of 18 December 1989

reducing for 1990 the levies on certain agricultural products originating in developing countries

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 43 thereof,

Having regard to the Act of Accession of Spain and Portugal, and in particular Article 234 (3) thereof,

Having regard to the proposal from the Commission,

Having regard to the opinion of the European Parliament (1),

Whereas both Poland and Hungary have seen their economic situation decline to the point where they face similar problems as those countries to which the generalized preferences have applied in the past; whereas they should therefore benefit from the system of generalized preferences in order to increase their export earnings with a view to stimulate their economic development, to promote their industrialization and to accelerate their rate of growth; whereas the benefit should only be accorded for the duration of their economic restructuring, estimated at five years, without prejudice to the annual character of the Community's system of generalized preferences;

Whereas, in view of the situation on agricultural markets both inside and outside the Community and taking account of the Community's interest in maintaining harmonious relations in agricultural trade with developing countries, in particular in the context of the system of generalized preferences, adjustments should be made to certain specific aspects of the common organizations of the agricultural markets;

Whereas to this end a preference should be granted consisting, according to the product concerned, in a reduction of the import levy within the limits of a fixed quota;

Whereas the temporary and non-binding nature of the system of generalized preferences means that the offer may be withdrawn wholly or in part at a later stage, thus maintaining the possibility of remedying any unfavourable situations which might arise, including in the African, Caribbean and Pacific States (ACP States) following the implementation of the system;

Whereas, since 1 March 1986, the Kingdom of Spain and the Portuguese Republic have been applying the Community system of generalized preferences; whereas the levies applied on the import into those Member States of products subject to a common organization of the market shall be established in accordance with certain provisions of the Act of Accession;

Whereas it is expedient that the Community should authorize the importation of the products referred to in the Annex, originating in the countries and territories benefiting from the Community generalized system of preferences, subject to the levies given in respect of each of them; whereas the benefit of such preferential terms should be reserved for products originating in the countries and territories under consideration, the concept of 'originating products' being adopted in accordance with Regulation (EEC) No 693/88 (2);

Whereas the Republic of Korea does not treat the Community on an equal footing with other trade partners and whereas it has taken discriminatory measures in respect of the Community in the sphere of the protection of intellectual property; whereas therefore it is inappropriate that the Republic of Korea should benefit from the system of generalized tariff preferences as long as this practice continues;

Whereas all interested Community traders should be ensured equal and continuous access to the said fixed amount and the rate of the levy laid down for that final amount should be applied consistently to all imports of the products in question into all Member States until the volumes laid down are exhausted;

Whereas the procedure for implementing this Regulation should be adopted in accordance with the procedure laid down in Article 24 of Council Regulation (EEC) No 2759/75 of 29 October 1975 on the common organization of the market in pigmeat (3) or the corresponding procedure in other Regulations on the common organization of the market for the products concerned,

HAS ADOPTED THIS REGULATION:

Article 1

1. From 1 January to 31 December 1990 a reduced levy shall apply to imports into the Community of the products listed in the Annex, subject to the conditions set out therein.

(1) Opinion delivered on 14 December 1989 (not yet published in the Official Journal).

(2) OJ No L 77, 22. 3. 1988, p. 1.
(3) OJ No L 282, 1. 11. 1975, p. 1.

With regard to Spain and Portugal, the reduction provided for in the preceding subparagraph shall apply to the import charge applicable under the provisions of the 1985 Act of Accession.

2. The arrangements laid down in paragraph 1 shall apply only to products originating in the countries or territories listed in Annexes III and V to Council Regulation (EEC) No 3898/89 (1).

3. The preferences granted by this Regulation shall be suspended, on a temporary basis, for products originating in the Republic of Korea.

4. Preferential entry as provided for in this Regulation shall be subject to compliance with the rules of the origin of products determined by Commission Regulation (EEC) No 693/88.

5. The fixed reduced-levy amounts shall be administered in accordance with the following provisions.

Article 2

1. The products appearing in the Annex shall be entered for import into the Community subject to the reduced levies given in respect of each of them, within the framework of the fixed reduced-levy amounts, the volume of which is indicated in column 5 of the said Annex.

2. Imports subject to a reduced levy under other Community preferential arrangements shall not be charged against the fixed amounts listed in the Annex.

Article 3

1. Without prejudice to the provisions of Article 1 (4), the detailed rules of application of Article 1 (1) shall be adopted in accordance with the procedure of Article 24 of Regulation (EEC) No 2759/75 or that of corresponding Articles of the other Regulations on the common organization of the market for the products concerned, in particular those ensuring the administration of the fixed amounts provided for in the Annex.

2. To that end a system of import certificates shall be introduced for the products appearing in the Annex.

Article 4

If the Commission discovers that products covered by the arrangements laid down in Article 1 are being imported into the Community at such prices that they cause or threaten to cause serious injury to Community producers of like or directly competing products, the levies applied in the Community may be partly or completely re-established for the products concerned with regard to the countries or territories causing the injury. Such a measure may also be taken in the case of serious injury or the threat of serious injury to a specific region of the Community.

Article 5

1. In order to apply Article 4, the Commission may decide, by adopting a Regulation, to re-establish the normal levy for a given period.

2. Should a Member State ask the Commission to take such action, the Commission shall take a decision within a maximum of 10 working days of receipt of the request and shall inform the Member States of its decision.

3. Any Member State may refer to the Council the measure taken by the Commission within 10 working days following the day on which it was informed thereof. Such referral shall not have the effect of suspending the measure. The Council shall meet forthwith. It may, acting by a qualified majority, amend or cancel the measure in question within a period of 30 days from the date of referral.

Article 6

Articles 4 and 5 shall not prejudice the application of the safeguard clauses adopted pursuant to Article 43 of the Treaty within the framework of the common agricultural policy or pursuant to Article 113 of the Treaty within the framework of the common commercial policy, or any other safeguard clauses which might possibly be applied.

Article 7

This Regulation shall enter into force on 1 January 1990.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 18 December 1989.

COUNCIL

DECISION OF THE REPRESENTATIVES OF THE GOVERNMENTS OF THE MEMBER STATES OF THE EUROPEAN COAL AND STEEL COMMUNITY, MEETING WITHIN THE COUNCIL

of 19 December 1989

applying generalized tariff preferences for 1990 in respect of certain steel products originating in developing countries

(89/645/ECSC)

THE REPRESENTATIVES OF THE GOVERNMENTS OF THE MEMBER STATES OF THE EUROPEAN COAL AND STEEL COMMUNITY, MEETING WITHIN THE COUNCIL,

In agreement with the Commission,

HAVE DECIDED AS FOLLOWS:

Article 1

1. From 1 January to 31 December 1990, the customs duties applicable to the products listed in Annexes I and II shall be totally suspended within the framework of tariff quotas and ceilings.

Spain and Portugal shall apply on the imports of products referred to above the customs duties established in accordance with Articles 178 and 365 of the 1985 Act of Accession.

2. The arrangements provided for in paragraph 1 shall apply solely:

— to each of the countries or territories listed in column 4 of Annex I against each category of products listed in columns 2 and 3,

— to each of the other countries or territories listed in Annex III, with the exception of Romania, for the same categories of products,

— to each of the countries or territories listed in Annex III for the other categories of products in Annex II,

subject to observance of the concept of originating products.

However, the Community preference arrangements applicable to Yugoslavia shall result exclusively from the provisions contained in the Agreement with that country concerning ECSC products [1].

3. The preferences granted by this Decision are suspended, on a temporary basis, for products originating in the Republic of Korea.

4. Preferential entry as provided for in this Decision shall be subject to conformity with the definition of the origin of products adopted in accordance with the procedure laid down in Article 14 of Regulation (EEC) No 802/68 [2] and contained in Regulation (EEC) No 693/88 [3].

5. The Community tariff quotas and ceilings shall be administered in accordance with the provisions set out below.

SECTION I

Provisions concerning the administration of the Community tariff quotas relating to products listed in Annex I

Article 2

The total suspension of customs duties within the limits of the Community tariff quotas referred to in Article 1 (1)

(1) OJ No L 41, 14. 2. 1983, p. 113; OJ No L 237, 26. 8. 1983, p. 1.
(2) OJ No L 148, 28. 6. 1968, p. 1.
(3) OJ No L 77, 22. 3. 1988, p. 1.

shall be accorded to each country or territory listed in column 4 of Annex I in respect of the products indicated against its name in columns 2 and 3 together with details in column 5 of the amount of the individual quotas.

Article 3

1. The Member States shall administer their tariff quotas in accordance with their own provisions.

2. The extent to which a Member State has used up its share shall be determined on the basis of imports of the goods in question which have been entered for free circulation, on the basis of the customs value of the said goods, and which are accompanied by a certificate of origin in accordance with the rules referred to in Article 1 (4).

Article 4

Each Member State shall reintroduce the levying of duties which have been suspended in respect of a country or territory listed in column 4 of Annex I as soon as it finds that the charges against its national quota of the products concerned originating in that country or territory have reached the amount laid down in column 6 of Annex I.

SECTION II

Provisions concerning the administration of the Community tariff ceilings relating to the products listed in Annexes I and II

Article 5

Subject to Articles 6 and 7, the preferential tariff ceiling arrangements shall be accorded:

— for products in Annex I, to each of the countries or territories listed in Annex III, other than Romania and those which may be listed in column 4 of Annex I, within the limits of the amounts specified in column 7 of Annex I, against each category of products,

— for products in Annex II, to the countries or territories listed in Annex III, considered individually, within the limits of a Community ceiling corresponding to 102 % of the highest maximum amount valid for 1980 under each of the preferential ceilings opened for that year.

Article 6

1. As soon as the individual ceilings fixed or calculated in accordance with the provisions of Article 5, which are laid down for imports into the Community, under the conditions which it shall determine, of products originating in any of the countries or territories referred to in Article 1 (2), are reached at Community level, the Member States may at any time, at the request of any one of them or of the Commission and in respect of the whole of the Community, reintroduce the levying of the corresponding duties on imports of the products in question from each of the countries or territories concerned until the end of the period referred to in Article 1 (1).

2. Within the framework of the foregoing provisions, the Commission shall coordinate the procedures for reintroducing normal customs duties, in particular by notifying the date common to the whole of the Community and directly applicable in each Member State. This notification shall be published in the *Official Journal of the European Communities*.

3. However, paragraphs 1 and 2 shall not apply to the countries listed in Annex IV.

Article 7

The extent to which ceilings have been used up shall be determined at Community level on the basis of imports charged in the manner laid down in Article 8 (1) and (2).

SECTION III

General provisions

Article 8

1. Imports of the products in question shall be charged against the quota shares and Community ceilings as and when the products are entered for free circulation, on the basis of the customs value of the said products, and are accompanied by a certificate of origin in accordance with the rules laid down in Article 1 (4).

2. Goods may be charged against a ceiling or admitted under a tariff quota only if the certificate of origin referred to in paragraph 1 is presented before the date on which the levying of duties is reintroduced.

3. For the purposes of the application of this Decision, the rates of conversion into national currencies of the value in ecus in which the preferential amounts are expressed shall be those fixed on 2 October 1989 and they shall remain in force from 1 January to 31 December 1990 (1).

4. An amendment to the list of beneficiaries, in particular by the addition of new countries or territories, may entail a corresponding adjustment to Community tariff quotas or ceilings.

(1) OJ No C 250, 3. 10. 1989, p. 2.

Article 9

1. The Member States shall, within six weeks of the end of each quarter at the latest, forward to the Statistical Office of the European Communities the relevant statistical data for the products entered for free circulation in the quarter concerned under generalized preferential treatment in accordance with the provisions of the present Decision. This data, transmitted according to the codes of the combined nomenclature and, where applicable, of the TARIC, shall show the country of origin, value, quantity and any supplementary units as defined by Regulations (EEC) No 1736/75 [1] and (EEC) No 3367/87 [2].

2. However, in the case of products in Annex I subject to quotas, the Member States shall, by the 11th day of each month at the latest, forward to the Commission, at its request, the list of charges effected during the previous month.

At the Commission's request, when the level of 75 % of the ceiling is reached, the Member States shall forward these lists of charges to the Commission every 10 days; these lists shall be forwarded within five days of the end of each 10-day period.

Article 10

The Member States shall, in close cooperation with the Commission, take all necessary measures to ensure that this Decision is applied.

Article 11

The Member States shall take all measures necessary for the implementation of this Decision.

Article 12

This Decision shall enter into force on 1 January 1990.

(a) Notwithstanding the rules for the interpretation of the combined nomenclature, the wording for the description of the products is to be considered as having no more than an indicative value, the preferential scheme being determined, within the context of this Annex, by the coverage of the CN code. Where ex CN codes are indicated, the preferential scheme is to be determined by application of the CN code and corresponding description taken together.

(b) Preferences are not to be granted in respect of products marked with one asterisk, originating in Romania.
